ABOUT

your wedding

Your wedding day is one of the most exciting days of your life. More than likely you have dreamed about this day for years and then spent months planning out each and every little detail. You have picked out the perfect dress, chosen a gorgeous arrangement of flowers and selected a drool worth wedding cake. But at the end of the day the dress will be put away, the flowers will wilt and die and the cake will be gone. The one thing that will remain are the photos. That is where I come in! My job as your wedding photographer is to make sure that all those details you spent months planning are captured for years to come.

Your wedding day is going to be a whirlwind of hair, make-up, friends, family and fun. While you are busy enjoying your day I am working behind the scenes to capture it all so you can look back at the photos and relive that magical day anytime you want. I love capturing real moments. That tear in your dad's eye as he sees you for the first time. The look on your groom's face as you walk down the aisle or that sweet hug from your grandma after she notices that you are wearing her necklace as your "something borrowed". Those are the moments that you are going to want to remember and I promise to capture them for you.

My job doesn't start and end with your wedding day. Before your wedding we will meet several times to plan your engagement session, go over the details of your wedding day and perfectly plan out a wedding day timeline. After your wedding I carefully go through all your images to create a gallery that captures the magic of your day and send it to you in an online portfolio that you can easily share with family and friends.

I love getting to know all my brides and by the time their weddings are over we have become good friends. I look forward to creating a friendship with you and being part of your special day

YOUR DAY

The First Look

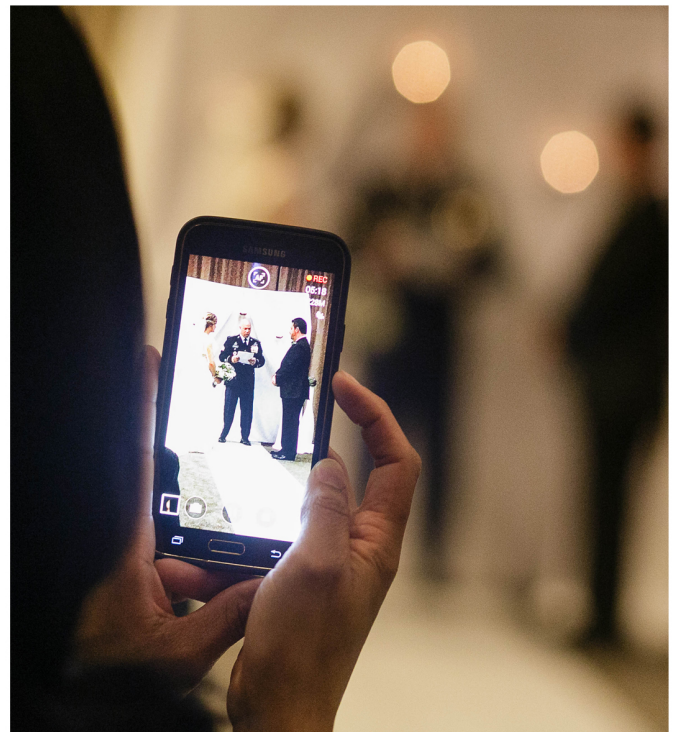

Your wedding day goes by so fast, you want to cherish every moment you can. I have several brides ask me WHY they should do a First Look. Here are three of my top reasons to include it in your wedding day schedule:

1. Give yourselves time together. Everyone is going to want to share in your day, which leaves little or no time for the two of you to just enjoy the moment together. A first look allows you to just relax and enjoy each other and share in the excitement.
2. Relax the nerves. Usually it is the groom that needs this the most. Sitting around all day waiting can get the best of him. I have grooms tell me all the time that doing the first look really helped calm their nerves and relax them.
3. It won't ruin that "walk down the aisle moment". Don't worry, when he sees you walk down that aisle it's a whole different feeling than anything else, and a first look won't ruin that.

Unplugged wedding

I cannot tell you how many times I have had a perfect shot ruined by a guest with an iPhone or a "fancy" camera. Sometimes it is the flash, other times it is someone stepping in my way. You are paying good money for me to capture your wedding day. Don't let your guests ruin it.

These days everyone has a smart phone or nice camera and feels the need to capture everything. Many brides are opting for "unplugged" weddings and are asking their guests to put their phones and cameras away for the ceremony. This allows them to enjoy the moment while I work to capture all the important moments..

INVESTMENT

Wedding Day Package

\$2000 (+tax)

Includes:

- 8 hours of wedding day coverage
- 2 photographers (Kendra + second shooter)
- online gallery of edited images
- USB with digital copy of edited images
- complimentary engagement session

A completed contract and \$200 deposit is required to hold your date. The remaining balance is due by your wedding date. Payment plans available.

wedding FAQ

WHAT IF I WANT MORE THAN 8 HOURS OF COVERAGE?

I am happy to accommodate your wedding day schedule. Additional time over the included 8 hours is charged at an hourly fee of \$125.

HOW LONG WILL IT TAKE TO GET MY IMAGES BACK?

My goal is to have your images edited and ready for you within 3-4 weeks after your wedding. I also post a "sneak peek" online within 48 hours of your wedding day

CAN I PRINT THE PICTURES MYSELF?

Your digital images include printing rights so you can print them as you please. If you would like keepsake prints or albums I am happy to order those for you.

CAN I SAVE MONEY WITH ONLY ONE PHOTOGRAPHER?

I do not shoot weddings without a second shooter. Having two photographers ensures that your day will be captured from all angles and no moment is missed.

CAN MY FRIEND/COUSIN (ETC) TAKE PICTURES TOO?

I ask that no other "photographers" are included in your wedding plans. You are paying me to capture your day and adding other "photographers" can hinder the quality of the images I am able to capture.

WHAT HAPPENS IF YOU ARE UNAVAILABLE?

I have never missed a wedding and don't plan to. However, in the event of serious illness or death I have second shooters that are able to step up and take my place.

WHAT IF YOUR EQUIPMENT FAILS?

I have backups for all my equipment and I am prepared for any problem that could arise.

Bridal Session:

Add on a bridal session and create stunning images of you in your wedding dress. It's also a perfect opportunity to test out your wedding day hair and make-up

Beauty/Boudoir Session

Looking for a gift for your groom? How about an elegant beauty/boudoir album. It's a great way to capture your beauty. Even more fun - make it a girl's day and bring your maid of honor or best friend.

Newlywed Session

Your wedding day goes by way to fast and more often than not the time allotted for photos is short. A newlywed session allows you to create a "style" session after your wedding that will give you more time to create the perfect "wedding" photo
