PRICING & INFORMATION

## *Congratulations*

This is one of the happiest moments of your lives! Planning the next chapter in your journey together as a couple is so exciting and should be enjoyed to the fullest.

Beginning the wedding planning process takes time and careful thought into each aspect of your special day. I enjoy helping my clients during this time, as I have had much experience planning weddings as well as photographing them.

At this point you are ready to find the right photographer for you. This is an important piece as these memories will be captured professionally and cherished for years and years. I am so excited to tell you more about what I have to offer...

## *About the artist*

Hello, I'm Lauren Lilly -  
Wedding & Portrait Photographer.

My work is truly inspired by love, romance and emotional connection. There is nothing I love more than capturing affection...the moments of a flirty smile, a warm embrace, sweet laughter and playful hearts. I still get butterflies hearing how couples fell in-love and watching that love unfold behind the lens. Whether it's a "couples in-love" session, your wedding day, both, or even beyond, my goal is to bring out your love for one another. I will guide you and create a fun and relaxed environment with our time together. My hope is to continue capturing your journey together as time goes on.

Everything I do begins and ends with your  
love story.

*Xoxo,*

## *How to choose your photographer*

Your photographer should be a person you both feel comfortable with. It's important that the style of photography shown is reflective of what you like and believe would represent your style.

Be sure to do your research on the photographer(s) you are interested in by viewing his/her website & social media accounts. If the artistic workflow looks streamlined, professional and consistent you should feel confident that the photographs he/she delivers will be of the same quality and standards.

Meeting the photographer in person is key to learn more about them and ask important questions. It's a good time to see if you can build a professional relationship with them.

*Every wedding is unique*

Your love is special ♥

How you show your love to one another is intimate and only yours.

Learning about you throughout the wedding planning process, I begin to see what brings out the best in you both as a couple. I will use this new knowledge from watching your interactions in an engagement session or from conversation. I capture the very essence of what makes you both the truly special couple you are.

Every couple has something beautiful to share ♥

*Trust me as I take you on an adventure together*

## Wedding Photography Timeline

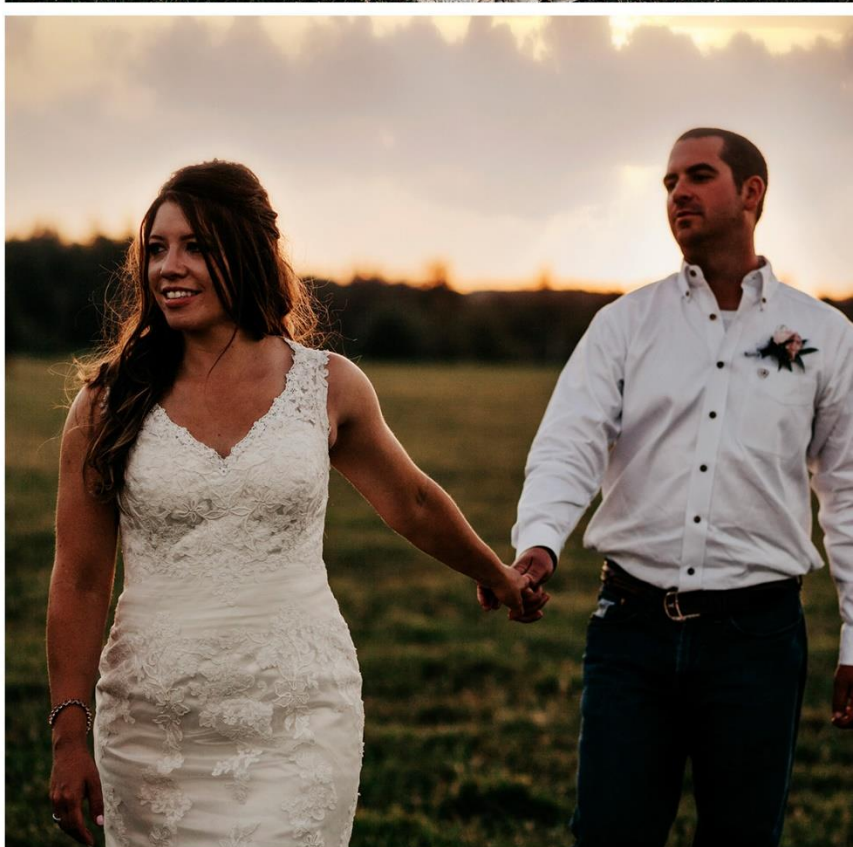

The wedding timeline is very important. With my help, together we will make sure that everything is planned to go smoothly on your wedding day. A tentative timeline will be created by me and given to you so you can make appointments and plan your day accordingly.

### 4 months before the wedding

At this time you should have most of the arrangements made for your wedding. If you would like help I can offer referrals for you or give you my professional opinion where it is needed. Your engagement session should have been done or is scheduled very soon. You will be thinking of your invitations and possibly ordering prints or a guest signing book from my professional lab.

### Two weeks before the wedding

Here we are so close! We will be discussing the rehearsal arrangements and any ceremony walk-through questions you may have. I will attend the rehearsal on most occasions to get a better visual of the wedding ceremony plans and to view the surrounding areas for wedding pictures. Any changes to the timeline will be discussed at this time and all details will be finalized. Any family details or special requests should be mentioned. Any collection questions or upgrades can be made at this time as well.

# Your big day

## *The morning of your wedding*

The day has arrived! I will meet you at the location we have discussed to photograph you getting ready and all of the intimate details.

### I will need:

- Your dress
- The rings
- Your shoes
- An invitation
- Bouquets

Upon my arrival I will begin with the details listed above. After this has been photographed I will begin taking photos of you and the bridesmaids getting ready. An important part of this time is photographing those closest to you helping you get into your gown after your hair and make up is complete.

## *30 minutes before the ceremony*

At this time it is important you and your fiancé are tucked away for no one to see. I will be getting into position for the ceremony and taking photos of pre-ceremony details and guest arriving.

## *After the ceremony*

Immediately following the ceremony, we will likely meet in private to shoot your romantic photos and/or sign the license. This gives a great opportunity for guests to relocate for refreshments before your announcement into the reception as Mr. & Mrs.

Bride and groom photos are expected at this time as well as family photos if arranged in the timeline. Sunset is always a special and romantic time for bride and groom photos. Depending on the time of your ceremony, the season and location of your venue we will arrange for these photos to be taken.

*it's all in the details* 🌿

## Professional Review

“The best way to reminisce about your wedding day is through photos.

Lauren captured every moment of ours perfectly.!

She was in a million places at once, capturing everyone’s true self with stunning candid. She did so much more than I could have ever imagined one person could be capable of! If I had my day to do over again. Lauren would absolutely be our photographer - a million times over!

Not only was she amazing at capturing our wedding day, Lauren has photographed our engagement, maternity, newborn, baby’s first birthday, and family photos. We wouldn’t want anyone else capturing our love story. It’s something that will always be special to us!

I can’t say enough about how professional and amazing she is to work with.

Thank you, Lauren!”

## Professional Review

“Lauren was an absolute pleasure to work with. She is amazingly talented, professional, and has a way of making you feel at ease in front of her lens. We could not be happier with how our engagement and wedding photos turned out.

Lauren’s eye for detail and vision in telling a story made our album come to life. We could not have asked for a better wedding photographer to capture our love on our wedding day. We are beyond thankful, and will cherish the photos and the beautiful album forever.

Thank you, Lauren.”

# FAQ'S

---

---

## *How do I reserve my wedding date with you?*

You will need to put your deposit of 20% down and the date will be reserved immediately. Cash, check or PayPal is accepted for this portion.

## *What if I'm not ready to pick a collection?*

No problem! You can upgrade at anytime between date of booking and your wedding. The deposit will then be based off of collection one.

## *Do I need a list of shots for you?*

No. However, if you wish to have specific photos taken I will make it a priority, as long as it is not replicating another photographer. Leave it to me to be sure all the creative & classic photos are captured. I use the timeline as a basis for the photo list.

## *Can you travel to where I am getting ready?*

Yes! If the location is nearby the venue, I will be sure to capture bride & groom getting ready photos elsewhere.

## *Do you offer two photographers?*

At this time I do not. I have found that my passion & dedication has not fallen short of capturing so many unique and beautiful photos on your wedding day. I offer a wide variety in your complete online gallery. I do not believe you need two photographers to capture the essence of your day well.

## *How many photos do you show?*

The average ranges between 400 and 900 in both color & BW. This varies based on:

♥ *The collection you choose* - this determines the amount of hours I will be taking photos. The more hours the more photos.

♥ *How well we stick to the timeline* - which ensures us enough opportunity to capture every moment and the candid ones in between. Every minute is important.

## *What if we are not photogenic?*

Yes you are! You just don't know it yet. Leave this up to me ~ all you have to do is have fun!

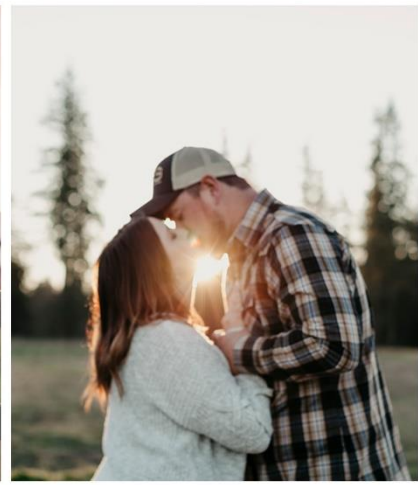

# *Couples in love*

## your ENGAGEMENT photos

Today, tomorrow & always

This is the perfect opportunity to practice being in front of the camera while working with me as your wedding photographer. You'll learn to know the way I give direction as I help you through each pose. At this time you can ask questions or let me know what you like and don't like. Getting to know one another in a relaxed environment where we can be ourselves is the best way to start off our professional relationship.

Remember the photographer will be with you every step of the way on your wedding day, and you must feel a sense of trust and confidence.

Let me capture your LOVE♥

### *quick tips*

*Your engagement photos  
announce your love to the  
world ✨*

*As your photographer, I don't expect you to know what you are looking for in your session. So I will gladly offer my opinion and give you options to choose from to create the best session for you and your fiancé.*

- Pick a location that fits your style as a couple with my help and guidance with seasonal advice
- Have two outfits ready for the session that go well with the location of choice
  - One dressy outfit and one casual.
  - Be sure to coordinate color hues and style
- It is important to feel comfortable in what you choose to wear, and have it be a true reflection of your style

*Have fun, relax, and let your love for each other shine ✨*

*“Thank you a billion trillion  
times!! The photos are  
amazing!!! The BEST  
investment ever!!!  
~ Breana Kranz*
