STARTING FROM

**PACKAGE PRICE + TRAVEL FEES**

# ELOPEMENTS

---

2024 PRICING + PACKAGES

## How it works:

Travel fees are determined by the location of the elopement. Everything drivable within the U.S. and anywhere more than 15 miles from my place of residence starts with a travel fee of \$0.55 per mile then doubled for the round trip cost. If the trip is long enough where I would need to get overnight accommodations or have to use another method of transportation other than a car, that travel fee would be worked out between the client and myself.

# ADD ONS

---

# PAYMENT POLICY

---

2024 PRICING + PACKAGES

## How it works:

You will receive two invoices from me. One for the down payment and one for the rest of your retainer due. All of my weddings and elopements require a nonrefundable 20% down payment taken from the total package price due at the time of booking and contract signing. The rest is due on the week of the wedding. Ex. your package is \$2,000, you would pay 20% (\$400) upfront when you sign your contract, then the rest of the \$1,600 the week of your wedding when I send the second invoice.) All payments (not including down payments) have a 2.99% transaction fee.
