

MY NAME IS TAYLOR

Photography started at a young age for me, and became a passion as well as a business in 2019. Since then, my images have been published in several national and international magazines. I love capturing candid, raw portraits that will tell your story for generations to come. I am an artist that is happy to lend my lens to celebrate your story, and a master at natural-light and true connections. My photography style is best described as classic, elegant, and timeless.

I have fallen madly in love with wedding photography and have built a wedding experience that my couples have described as personal, timely, and unforgettable. From the first look, the rings, your family, the venue, the dress, your closest friends. Every part of your wedding day, down to the last detail, will be documented in a gorgeous gallery collection of images. Proudly relive your day over and over and share it with future generations to come. I want everyone to have the opportunity to look back at their photos as the years pass and be able to relive those special moments. To give everyone this opportunity, I offer payment plans that may be tailored to fit your individual needs.

WEDDING PRICING GUIDE

MY STYLE

LIGHT. CANDID. TIMELESS.

I have a soft spot for natural light, and while artificial light can be beautiful, there is something about the dreaminess you can achieve with the warm haziness the sun casts down on us through the clouds and trees. I am a storyteller, and photographs are one of the very few tangible things we will have left to look back on these precious moments, meaning that my perspective will affect how you remember your most special time! I strive to capture every last little detail, big and small, in the most beautiful and artful way possible. I shoot very candid, raw and REAL images with a classic and timeless feel. Which is why I like to tell people that I create images that show what emotions look like. I make your memories, and your emotions...
