

MY NAME IS ANGELA

In 2012 I made the decision to pursue my love of photography. I began as most photographers do, by shooting for my family and friends. In 2012 I shot my first wedding. I decided right then and there that I was hooked! There is literally nothing better than capturing two people in love! In 2014 I began training my husband to be my 2nd shooter and we haven't looked back. By 2017 my husband and I were in Cancun Mexico shooting our first international destination wedding. Now it is 2019 and my team and I have shot over 200 weddings, in dozens of locations along with hundreds of beautiful faces and a few four-legged friends!

Nearly all of our couples are paying for their weddings on their own or with limited help from their parents or family members. On average, our clients spend around \$1875 with us on their wedding photography but we work within every couple's budget to ensure your dollars are well-spent and you get the most out of your wedding experience. WEDDING PRICING GUIDE

MY STYLE

MOODY. RAW. ORGANIC.

I have a weak spot for natural light, and while I can absolutely shoot in artificial light, there is something about the dreaminess you can achieve with the warm haziness the sun casts down on us through the clouds and trees. I am a storyteller, and photographs are one of the very few tangible things we will have left to look back on these precious moments, meaning that my perspective will affect how you remember your most special time! I strive to capture every last little detail, big and small, in the most beautiful and artful way possible. I shoot very candid, raw, and REAL images with a classic timeless feel, which is why I like to tell people that I create images that show you what emotions look like. We make your memories, your emotions... UNFORGETTABLE.
