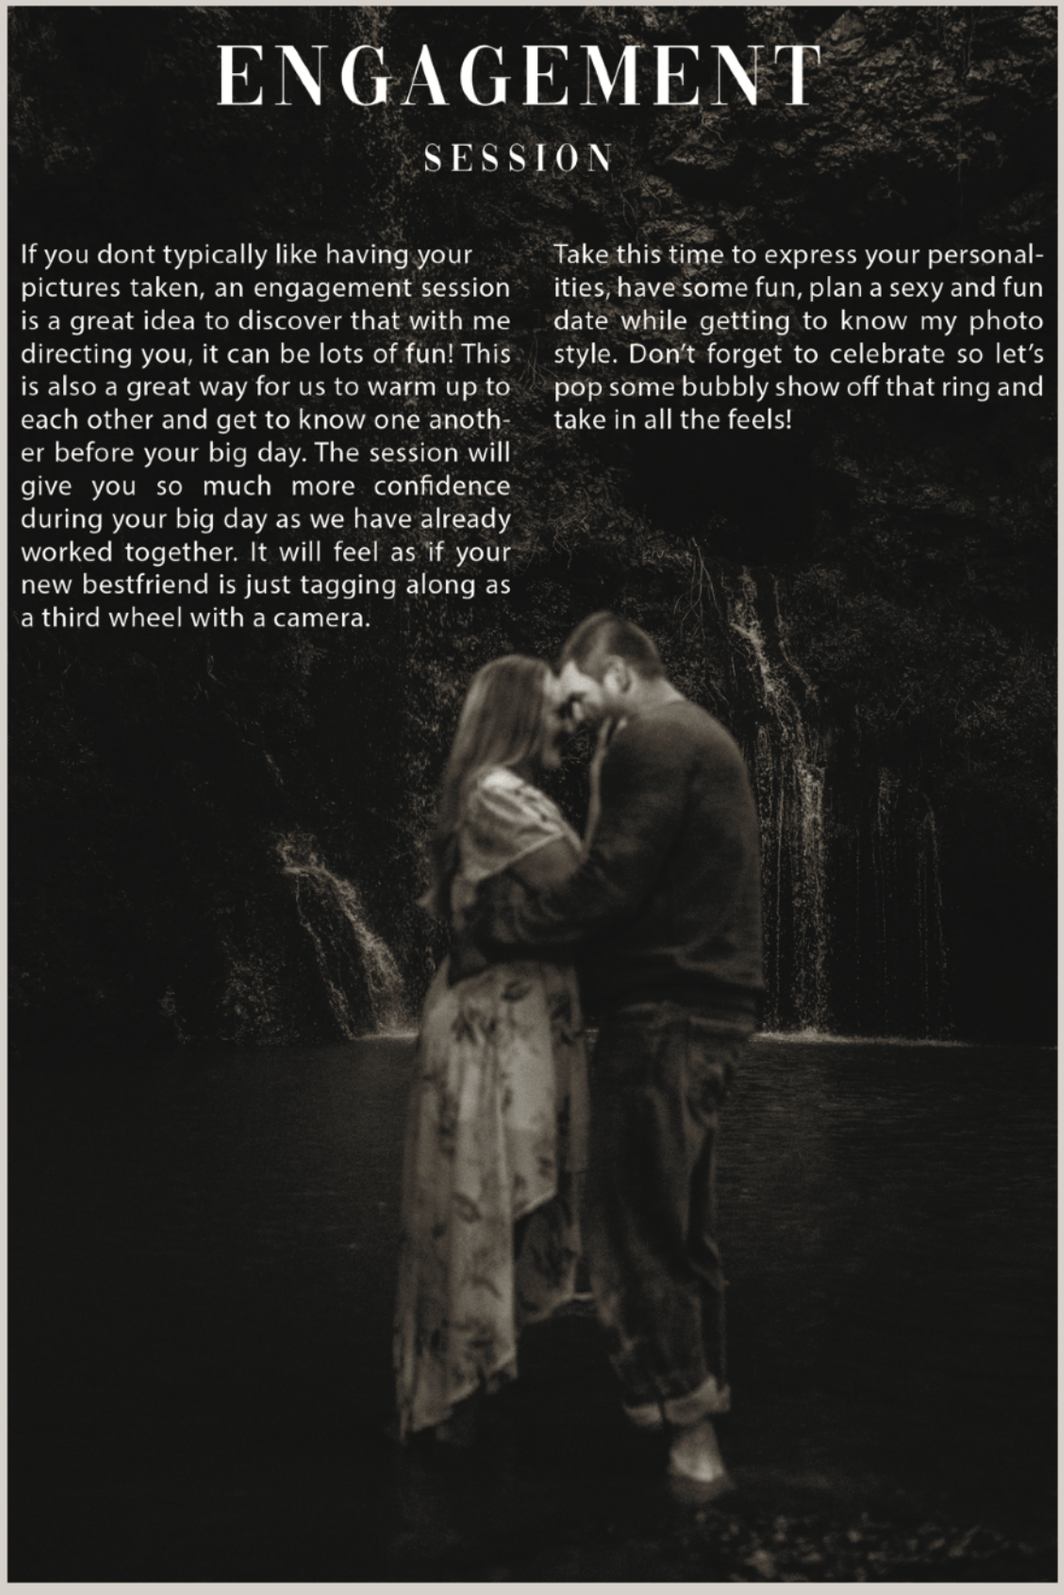
ENGAGEMENT

SESSION

If you dont typically like having your pictures taken, an engagement session is a great idea to discover that with me directing you, it can be lots of fun! This is also a great way for us to warm up to each other and get to know one another before your big day. The session will give you so much more confidence during your big day as we have already worked together. It will feel as if your new bestfriend is just tagging along as a third wheel with a camera.

Take this time to express your personalities, have some fun, plan a sexy and fun date while getting to know my photo style. Don't forget to celebrate so let's pop some bubbly show off that ring and take in all the feels!



Lets make it yours!

A LITTLE LOVE

For Katie

Katie is altogerther awesome! Plus Katie was extremly helpful before the big day! She is a true true artist & did a great job capturing every aspect of our wedding; she even trecked through tall grass in the snow while carrying me to get the perfect shots! I highly reccomend her!

JILL SMITH

Just recently did a bridal shoot with Katie, and I am so happy with the results!! Katie has an amazing eye to get the most unique photos. I absolutely loved working with her! Very professional and so much fun! She truly made the experience unforgettable. I'll defiantly be booking more sessions to have my future milestones captured with her amazing photos. And highly recommend her to everyone!!

MAGGAE JANE

Katie did such an amazing job. She was very helpful and made the entire experience amazing. From the moment I reached out to her all the way until I received my photos she answered all questions and made sure we were comfortable. I am beyond grateful that Katie was apart of our wedding. She helped everything run smoothly while capturing breathtaking photos. I would book her all over again. Hands down the best photographer I have ever worked with! Katie has a wonderful heart and genuinely cares about her clients and is so passionate about her work and it shows!
