# A LITTLE BIT ABOUT ME

Hi!

Thanks for downloading my wedding photography price list and congratulations on your engagement! I hope you're enjoying getting started on your journey into wedding planning! I'm here if you need any help.

If you've had a look around my website (and if you haven't, feel free to go and have a nosey >> [chris-seddon.co.uk](http://chris-seddon.co.uk)) you'll know that my approach to shooting weddings is one of capturing unposed, genuine moments that tell the story of your wedding day.

Don't take this as a sign that I'll be one of those photographers who'll sneak around the edges of your wedding sniping long-range photos of your guests. Far from it. I like to think of myself as a special guest with a camera.

Whilst I'm creating relaxed and natural photographs during the day, I'll be chatting to your friends and family. This helps everyone to relax and lets me capture plenty of those 'I was there' moments! Ones that will let you re-live your wedding day over and over.
