

Wedding Films

Preserve your special day with an exceptional film.

The Approach

Forget what you've seen in your parents' wedding video... Imagine your wedding day preserved with beautiful, modern cinematography in a personal keepsake you will want to share and enjoy for years to come.

Your wedding day is about two lives coming together—An incredible occasion! People who love you have spent hours planning, prepping, setting up and making arrangements. LarvickMedia will capture it all—the essence, emotion, and details of your special day. So after it has come and gone, you can enjoy it time and time again.

We combine the detail and quality of HD camera footage with the warmth and familiarity of a film-like approach that will remind you more of a major motion picture than a home video. An artistic eye, quality cameras and lenses, and sophisticated editing tools enable us to deliver a stylized film that is both contemporary and timeless. Find examples [here](#).

What to expect

- ◆ **A casual, non-obtrusive, photojournalistic approach.** Though we may occasionally ask for a particular room or window for the best light, our goal is to be out of the way, capturing natural expressions and events.
- ◆ **Behind-the-scenes details.** A camera will follow you for much of the day while also filming friends and family members busy with their tasks.
- ◆ **Pro audio.** Poor sound quality makes for a frustrating viewing experience. Your day will be recorded with professional microphones and, where possible, a feed directly through the sound board for the ceremony.
