

## Wedding Sample Price List

Please see the items below for our current **sample** pricing. Prices are adjusted to suit our clients' order preferences. Ranges in prices reflect variations on size, style, and cost of specialty flowers such as garden roses, protea, etc.

Please note that we are a specialty cut flower home design studio on a flower farm. We are a good match for folks who have specific color and style preferences and seek sustainably grown flowers, but we may not be the right florists for folks who just need that one certain rose. Take a look at our Instagram account (@kinshipflowerfarm) for a clearer sense of the many kinds of flowers that grow here in Middle TN. We feel the specialty crops we grow on our farm will help your wedding be memorable and unique.

We have a \$2500 delivery and installation minimum on wedding orders, but we fill smaller orders for pick-up at our farm, and we have wonderful clients who chose that option, too!

Prices are subject to change, but all quoted prices will be honored to the best of our ability once a signed contract has been negotiated.
