

Wedding Day Photography

Base package... \$450.00

If you absolutely need to keep your photography budget to a bare minimum, then my base package is your best option. I will photograph all your formal poses, your service, your pre and post ceremony events. You will get the usual combination of photography styles and as many images as necessary to get the job done. I then edit and correct the files for proper color and exposure. These images are then delivered online along with a copyright release so that you can download and share your images as you choose.

All day coverage... \$600.00

Complete wedding day coverage includes everything in the base package as well as the reception. If it is important to you to have your first dance, cutting the cake, the best man toast, Uncle Fred doing the Twist and other events professionally photographed, then take a step up from the base package.

The wedding experience...\$900.00

This is the complete wedding experience. From the engagement photo session through all of the important events at your wedding reception, both big and small, I'm all yours. I start before you arrive and I don't leave until there is nothing else to photograph.

I do not shoot just to have a specific number of images, rather I shoot as much as necessary to cover your day thoroughly, this will average about 75 images per hour. After your wedding, my work is just starting. I will edit out the duds, and then correct the remaining images for exposure, and color. At least some of the images will be cropped for greater impact. Finally, I will deliver your files in a universal format that you can take anywhere you choose for further printing. I also enclose a copyright release that allows you print your images without question.

Albums

I do not take random snapshots when I am working. Every image I capture has a story to tell and a place to tell it. Purchasing your wedding albums through me doesn't just give you a collection of pictures in a book, I tell the story of your day. The important moments become the most dominating images and the smaller moments are used to build towards those important moments.

I have 2 styles of albums to fit your lifestyle and wedding.

Classic Albums

This is the album that has been around for decades. The cover comes in 2 styles, a embossed floral print, or with a picture inset. The cover is a leatherette finish and the pages are lay flat pin-hinge design. Real photo prints are mounted in mats and then inserted into protective

sleeves. Album prices include the cost of photos.
