Oh the joy of holding your tiny little baby for the first time! But they grow up so fast and you do not want to miss this chance to capture portraits of them so you can cherish this moment in life forever. I recommend the best time to photograph newborns when they are between 6 and 15 days old. The sessions are about 2 to 3 hours long with various poses.

Session Fee

\$ 2 0 0

Your newborn session includes custom session planning, a 2-3 hour session at my studio in Twentynine Palms, full access to Krystal Rose Photography's exclusive props and client closet, parent and sibling poses, 3-4 sets, full retouching of all final images, and an in person reveal and ordering appointment.

Congratulations on your soon-to-arrive bundle of joy! This is such an exciting time in your life and what better way to capture these memories than with memorable portraits. Documenting your pregnancy will be a great way to share these moments with your son or daughter in the future. If you are a little anxious do not worry! I have worked with many pregnant mothers and my job will be to keep you as comfortable as possible. That's a promise! Feel free to give me a call so we can talk in person and I'd be happy to give you more information on what to expect during your session. Just relax and let me take care of the rest.
