

At The Style Booth we like to keep it simple and are all-inclusive* with our pricing. Want full size photos instead of photo strips? You got it! Want to be able to record video clips? Done. Hoping to have a green screen and pretend that your guests are braving it in front of a live volcano? Just let us know how hot you want that lava!

Of course, while we include options that most companies charge extra for, we have our limits as well. We cater to requests for custom set design, costumes, props, and so forth, which we'll provide an estimate for after discussing what you're looking for and how we can make it possible. Don't be shy about it either, this is your event after all!
