

Thank you for your interest in having Jaela B. Photography capture such important details of your life! I strive to add to your wedding day by giving you a comfortable and relaxed feel. I want to be there to capture all those natural moments and even help to create some of those for you! Below you will find my booking options for the 2020/2021 wedding season. ALL collections offer a very generous payment plan that we can work out in advance. Most collections also offer a complimentary engagement session so we are sure to connect before the wedding.

At Jaela B. Photography we consider all forms of photography an art and your wedding day is no exception. I always include a second shooter for your big day and sometimes I even have a third come along as well, giving you the most bang for your hard earned buck!

When you sit down and browse through a wedding magazine or album you should be in awe. The photographs you see should capture many different aspects of a wedding day, telling you the story of that day. You should be able to see and feel the emotions of those photographed. When we photograph a wedding we strive to have you taken back into that day and time, to help you relive it all and to feel all the beauty that took place during that once in a lifetime moment.
