Wedding Photography Packages

I'm a wedding photographer, that's what I do because I absolutely love it. I have been a wedding photographer for the past eight years. It's my lifestyle, my passion, my nature.

When I meet with the couples for the first time, it's important for me to show them that I am just as much interested in getting the best wedding photos from the engagement and the wedding itself as the couple. I want to get home with the best shots that will be the great reminder of the one day that is surely the most important one in your life.

I shoot in journalistic style of engagement and wedding photography and try to observe and capture things without being the focus of the wedding. Every wedding is unique and has to be that way. My role is to show that through the photographs.

I moved from Russia five years ago and California became the best home for me. There are numerous locations for engagement shoots and lots of great venues for that one special ceremony. With Las Vegas only a few hours away and LAX always nearby, I've worked in Florida, New York, Pennsylvania, Nevada, Iowa, and California.

“He is a really nice, responsible and professional photographer. He gave me many helpful ideas and taught me a lot of poses. It was SUPER AWESOME. And my husband and I really love it!”

Janice

“Sergey did awesome work with our wedding pictures. He is a great artist behind the lense. He was able to capture awesome picture that I am happy to share with my family and friends.”

Chrissy

“It was absolutely a pleasure to work with Sergey. He worked with us intimately and delivered results beyond expectations! Very professional, punctual, and knew exactly what would work.”

Frequently Asked Questions

How do we start working together?

If possible I would like to meet with you. You'll get to know me, I'll get to know you. I think personal contact is very important. After you choose me as a your wedding photographer, I'll send you agreement and we make our plan for the engagement shoot and the to-do list of what we need for it and etc. You should fill out the agreement out and make a 30% deposit. The rest of the payment you will need to make at the end of the wedding day.

How much is the deposit?

I require 30% deposit. The rest of the payment you will need to make at the end of the wedding day.

What happens after I give you the deposit?

Once I receive deposit, I book the date for you in my calendar and send you the agreement. About 3-4 weeks before your wedding I'll contact to you to talk more about your schedule or we will talk about it with your wedding coordinator. This will help you feel more confident and relaxed that everything will go according to plan, at least with your wedding photographer.

Do you work out of town?

Yes. I like to travel. I've shot weddings in New York, Miami, Iowa, Pennsylvania, Nevada and I'll be happy to visit your state or city. There is no charge for travel in Southern California and Las Vegas. If your is wedding outside of California, contact me and I'll give you the estimates for travel expenses.

Where are you based?

I'm based in Los Angeles. But I often travel to San Francisco, San Diego and Las Vegas.

Will you personally shoot our wedding or will it be someone else?

Your wedding will be shoot only by me. I'm not an agency and I personally guarantee the quality of the pictures.

Do you work with an assistant / second photographer?

Yes. When I work for more than 6 hours I work with a second photographer. That person is also a very good photographer and you will get the same quality of images from both of us.

When we will get our pictures?

Your photos will be ready in 8 weeks. It takes time because I work with each photograph individually. Albums will be ready in 8 weeks after you accept layout design.

How far in advance should we book you?

Usually it's 6-12 month, but the best way is to book me as soon as you know your date. Sometimes I'm contacted a few times a day about the same wedding date.

What equipment are you using?

My primary camera is Nikon D810 (36 megapixel camera) with a set of top of the line prime lenses. Your photos will be sharp and crisp and can be printed as big as you wish. I always have backup cameras and sometimes shoot on film.

Can I use my photo as I want?

Yes, you can. You will receive a USB drive with photographs from your wedding and/or engagement shoot and you will have full usage rights. You can print them, send to you friends, upload on Facebook, Flickr, Snapfish, ect. Sergey Green Studio retains the copyrights on all photographs.

Album Sizes:	8x8	10x10	12x12	16x12
10 spreads	\$379	\$449	\$539	\$639
20 spreads	\$679	\$799	\$929	\$1,079
30 spreads	\$979	\$1,149	\$1,319	\$1,519
additional spread	\$30	\$35	\$39	\$44
cover box	\$99	\$129	\$129	\$129

How can I upgrade my album?

If you want to upgrade to another size or a larger number of sides, simply calculate the price difference in albums. This will be the cost of an upgrade. Going from 8x8 10 sides to 10x10 20 sides will cost you $\$799 - \$379 = \$420$.

What if I need 15 sides instead of 10? How many spreads can I have in total?

To give you an example, you'll look at the price of 10 sides, for 8x8 let's say. It is \$379. Now multiply the cost of additional spread cost (\$30) x 5 more spreads. The total will be $\$379 + \$150 = \$529$. You can do the same calculation with any other album size and number of spreads. There can be 60 spreads in total.

What is a cover box?

This is a leather box to keep your albums stored safely and securely. It will match the size and color of your album.

Can I create a custom album?

If you have different preferences, please contact me and we will adjust the options for your needs.

Difference between a page and a spread.

Thank you for your interest! I'm looking forward to talking to you about your wedding.
