TRIO	3	\$1,700
	4	2,000
4-PIECE	3	\$2,100
	4	2,500

***Note:** More and more often, venues as well as clients are requiring us to not only provide a copy of our certificate of (liability) insurance, but to have the venue and the client (and some times the DMC or agency) be additionally insured on our policy. We arrange insurance per event and can provide you with a quote for this one-time/per event insurance (and we've found it to be very low cost). Because we've not increased our rates over the last several years and we're trying to keep our rates as low as possible, we do pass along this cost to our clients (it's not included in our rates). Call or write for more information.*

Valley-wide, non-holiday, corporate & private events. Includes our sound and lights for small groups up to approximately 600 guests.

Overtime is \$100 per musician per each one additional hour (or portion thereof)

Additional musicians are available if required. Call or write with any questions.

Early set-up fees apply when band is required to be set-by anything over 1.5-hours prior to start of the performance.

Difficult load-in/out fees maybe apply to venues which are hard to get to (i.e.; we can't pull our vehicles near the stage area, if there are stairs involved in the load-in/out, if we have to hand carry heavy equipment through sand or rock, etc...). Call or write ahead of time if there are any questions about a particular venue.

Some of the areas outside of the "Local-Valley Of The Sun" area include Gold Canyon, Prescott, Payson, Sedona and similar distances. We do offer out-of-town rates for Tucson, Sedona, Flagstaff, Yuma and similar areas. Call or write with any questions.
