

Contemporary Cooligraphy Pedants

Notice:

Please visit my web site first and make sure that the Contemporary Style Pendant is the one that you would like to order. If you are interested in other styles then do not use this order form but contact the artist to request a correct order form for the style of the pendant(s) you wish to order. Contemporary Cooligraphy Pedants

The contemporary ones look solid silver or gold and the letters are engraved on the face. Please take a look at the following website (copy and paste this URL): <http://www.freewebs.com/danielnie/storele.htm>

Note:

If you already have the design that I did for you, then please scan the name-calligraphy into your computer in a jpg file with 300 dpi at a size about 2" x 2" , then attach the file(s) with the following order form (please print in the order form the name that is in the design for my reference) and email all of them to me. If you will not be able to scan the original calligraphy or you never have the original design done then just give me the spelling of the name(s) in the order form, but please be aware: the new design will not match any old designs that you may have them done by me in the past, since I do not keep any files of what have done in the past.
