

Welcome to Crown Point Ecology Center.
Congratulations on your engagement and upcoming wedding!

Located just a short drive outside the vibrant community of Akron, Ohio, Crown Point Ecology Center's beautiful surroundings in Bath Township create the feeling of a private rural destination. Our dedicated staff makes every effort to provide a timeless and elegant wedding positioned against the backdrop of our historic red Century Barn (circa: 1910). Crown Point's 115-acre property nestled in the Bath countryside transports guests back to an earlier time while still providing access to all of life's modern amenities.

Weddings at Crown Point range from casual afternoon events in sundresses and khakis, to formal sit-down affairs with long gowns and tuxedos. Ample parking is available and guests are welcome to explore the property – meadows, woods, wetlands, greenhouses and barns. Accommodations are also available in our main farm house for the bride, groom and bridal party to handle all the pre-wedding details.

The Crown Point staff works hard to ensure that set-up and tear-down arrangements do not detract from your special day. We do not schedule back-to-back weddings preferring to provide space for your unique needs and desires.

Although you may have your own preferences and contacts for rentals, catering, photographers, etc., we are happy to provide recommendations for vendors that have been especially successful for other Crown Point occasions.

Please e-mail weddings@crownpointecology.org or call our main office at (330) 668-8992 for pricing information and availability.

Thank you for choosing Crown Point Ecology Center.
