SUPERNOVA

The Supernova facial incorporates state of the art anti-aging technologies and is the treatment responsible for many of the radiant faces you saw on the red carpet this year. This facial resurfaces the skin with a nutrient-rich liquid exfoliation, leaving the skin baby smooth. Next, microcurrent contours and depuff your complexion and a collagen mask infuses it with vital nutrients. Finally ending with cryotherapy which increases cellular metabolism, circulation, oxygenation, and lymphatic drainage while providing anti-inflammatory benefits. The results are healthy, youthful and glowing skin.
