

WEDDING VIDEOGRAPHY PRICING

Head First Studios is happy to provide you with professional, high-quality and personalized wedding videography. Every story is different, and since we recognize this we can build custom packages for differing levels of investment. We do, however, have three levels of package that will accommodate most couples. We do believe that in order to capture your story in its fullness, we need to spend the entire day with you; beginning to end.

Before your wedding day we offer a complimentary planning session so that we can get to know you, ensuring that on your wedding day we will have a genuine connection to you and your story. We want you to know that the moments that are special to you, are important to us as well.

We would love the opportunity to chat about your wedding day and see what we can do to play a role in it. We truly want to do everything we can to make your wedding day incredible.
