JukeBooth Photo Booth Services

JukeBooth is focused on providing awesome fun, best looking photos, and just giving the best experience you and your guests will receive every time in our studios. Listed below is what makes us JukeBooth different from everyone else.

JukeBooth's "Camera" of Choice

All photos will be taken from the **Nikon DSLR D7200 model**, which is a large step up from the Cannon "EOS" Cameras that our competitors are using. All photos come out crystal clear with vibrant colors. We also are using a wide camera lens to fit large groups into such a small 10ft wide area. Our system also has a built-in remote-controlled tilt camera feature, which is controlled by the photobooth operator to lower and raise the camera to adjust heights from toddlers low to the ground up to the tallest of people.

JukeBooth's "Printer" of Choice

Having awesome photos need to be printed on the best photo paper. That's why we have the best printer strictly made for photo booth operations. We use the DNP DS-RX1HS which prints out 4"x6" prints in 12.4 seconds with a high-resolution of (300x600dpi) on glossy finishes. This printer will also professionally cut prints into 2x6 strips (duplicate print of 2) when you want the smaller size print. (You have choice of 2x6 or 4x6)

How many prints are allowed to be printed out per session? Unlimited is our answer and we mean it. If there is 10 people in a group, we print 10 photos. Other companies say unlimited photos but print out 2 per session. (*That's false advertising*)

One of A Kind Custom Made Templates

Having the best photo paper along with high quality photo images, needs to have a beautifully designed template for everything to come together. JukeBooth custom makes your very own template creation. Each template can range from 1-3 hours of design time until YOU are pleased. *"We understand your wedding day is a special day for you, so we feel that your template needs to be special too".*

Props, Props and More Props

JukeBooth is known for having the *"Largest inventory"* of deluxe props and accessories that we bring to each event. While other companies only bring 1 table with an assortment of hats, glasses and signs. We sometimes will set up to 2-3 tables of props and accessories for the larger parties, to cater to those large amounts of people in groups that all decide that everyone wants to be in the photo. For this reason, we have multiple colors of the same hat, glasses, along with duplicates as well for those large groups that want to look the same. We have fedora/top hats, ladies sun hats, colorful boas, small and jumbo sun glasses, nobility themed hats/masks and all the accessories to match such as swords, wands, horses, money bags, septors, parrots and so much more.

Photographer (Booth Operator) - (Dressed to impress in JukeBooth Uniform)

Taking care of the booth is a fulltime job. With the number of props and accessories that we provide along with having multiple photos per group. We must keep everything organized and have everything put back where it belongs between photos. Because we don't rush you between photos,

we want everyone to pick something totally different for every photo. We give about 20 seconds between each snap shot. You might think 20 seconds is too long to wait, but it's just enough time to put something back and search for something different and put it on. Our photographer will have to count down that last 5 seconds because people are still looking. Without the booth operator there getting involved half the people would be not in the photo. Babies and small children are another reason why the photo booth operator is needed. We want to get the babies or small children looking at the camera and we use noise props to get their attention. We want a great photo everytime. (booth operator also adjusted tilt of camera as well to fit everyone in the photo (tiny too tall)

The JukeBooth Studios

This is where all the magic mention above happens. You have so many choices to create YOUR own studio.

- **Small and Private:** 10x10 surrounded enclosed black privacy curtain booth (8 feet high) with choice of background curtain color / greenscreen with our prop table or tables on the outside with red carpet entrance. No photographer inside and waits patiently on the outside for you to finish but is monitored by operator on outside on separate monitor.
- **LED (Multi Colored) white Inflatable 10x10 booth.** We can keep booth one color or let it color swash on its own. No backdrop inside just the color or colors inside. Prop table or tables on the outside with red carpet entrance. No photographer inside and waits patiently on the outside for you to finish, but is monitored by operator on outside on separate monitor
- **Open Air Booth:** Recommend being in a corner for this setup. Our booth will be by the back wall and your choice of curtain color backdrop / greenscreen about 10 feet away from booth. 8 ft table displayed alongside of neighboring wall and 6 ft table across from 8 ft table. (15ft wide x 15ft long) red carpet entrance
- **JukeBooth Fully Enclosed Booth:** Recommended to be in a corner for this set up. Our booth will be by the back wall and your choice of curtain backdrop color / greenscreen about 10 feet away from booth. 8 ft table displayed alongside of neighboring wall and 6 ft table across from 8 ft table. (15ft wide x 15ft long) entire perimeter except the two walls with have 10 ft sections of black privacy curtains (8ft high) with door entrance with red carpet entrance.

Photo Library - USB stick and Gift

At the end of your event you will receive all the photos that were taken on a USB stick and is part of any package you chose. Your guests will be able to view all the photos that were taken at your event and downloaded on our website. There is no charge or any fees for any download that you or your guest will be asked to. This is all included as well in all our packages. You will also receive a *photo album* with every photo taken that night as a gift from JukeBooth for your business.

Social Media Packages - Additional Service

We can add a feature to any package to allow any guest to enter their phone number, email or twitter account on to the screen and they will have instant access to their photos to share over the web. **\$50.00 additional Fee**

Scrap Book Station - Additional Service

Instead of a photo album as a gift, you will be upgraded to a photo scrap book where your guests can write all kinds of stuff alongside of the photo, they just took on special acid paper. They will have a choice of color of glitter markers that will be available next to album. An additional small 2x2 table will be provided for people to walk up and write in book. **\$100.00 additional Fee**
