Whatever the reason, we offer Day-After-Wedding sessions to make sure you get the photos you want! You and your spouse can put your wedding attire back on, this time without fear of getting dirty before the big day. You can get creative or adventurous by wading out into a stream, laying in a meadow, or climbing a tree! Sounds fun right? Let's do this!

## WEDDING ALBUM PRICING

Photographs are one of the few elements that last beyond your wedding day, and they often become priceless family heirlooms that are cherished for generations. For this reason, we offer photo album design and printing services so you can share, display and enjoy your photos for years to come.

Our photo albums are made by a company that caters to professional photographers. We only offer the company's top-of-the-line album, which combines custom craftsmanship and handmade details. Each page is printed edge-to-edge on true silver halide Fuji lustre photo paper. The photos are then flush-mounted on board, resulting in an album that looks like a book, but with pages that are thick and do not fold. The album has a layflat design for easy page viewing. These albums are designed for durability and to stand the test of time.
