WEDDING + ELOPEMENT PACKAGES

2024

**Based in the PNW but
ready to adventure
wherever your
love leads.**

hi!

I'M em

Just wanted to take a moment to introduce myself and share a little bit about the experiences that have led me to become the wedding + elopement photographer you've reached out to today!

I began in the wedding industry working for a Los Angeles wedding planner after planning my own wedding and actually enjoying it (might sound crazy, I know!). I then worked at a bridesmaid dress company in Santa Monica, moved on to a flower delivery company in Venice Beach, until finally moving up here to the PNW in 2019 and taking my photography biz on full time!

With the knowledge I've gained from my various experiences throughout the wedding industry, I've been referred to as a "wedding swiss army knife". It's with this knowledge that I come alongside my couples and help them plan the best day of their lives while also getting to document it for them in a natural and candid way - **true to who they are together**. I'm here for the over the top dreams and details or the simple and intimate gatherings. No matter what your **best day ever** looks like to you, I want to be there.

From mapping out the timeline to the moment you say "*I do*" and all of the little nuances and questions in between.

**I truly want to be more than just
your photographer, I want to feel
like your new best friend.**

let's get down to business...

**So you're on the hunt for someone to photograph
the most important day of your life?**

First, CONGRATULATIONS!!!
What an exciting time for the both of you!

Second, now the real "fun" begins. The planning.
(you can't see me, but I'm making some sarcastic air quotes right now)

But in all seriousness, between all of the choices and decisions and plans that you now have to make I get that it may feel like you don't even know where to start! **OR** you have started and you're basically killing the wedding planning game.
Either way, kudos to you.

AND NOW you're at the part where you're looking for the person who is going to be there with you to document your special day so that you can *enjoy it and relive it for years to come.*

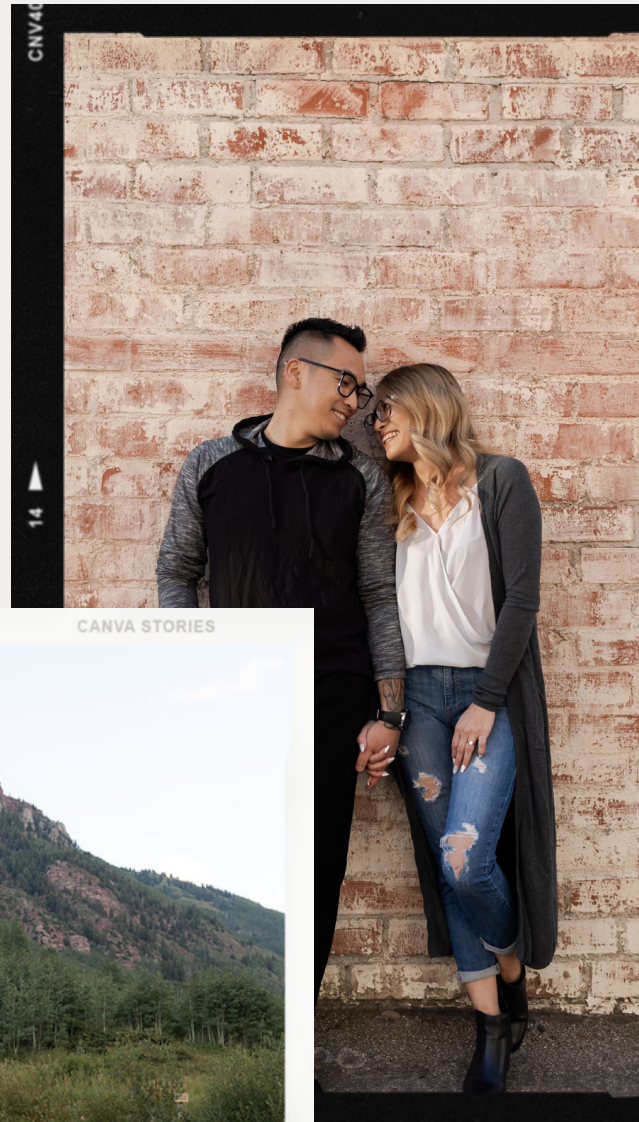

**Well if you're looking for natural and candid style photographs
and vibrant, true to color edits with a hint of warmth to them,
then look no further.**

let's get down to business...

But wait.

Does the thought of having your photo taken
make your heart beat a little faster?
Think that there's *no way* you can look comfortable in any photos?
Never even had "professional" photos taken?

Well then I have you covered there. Getting my couples comfortable and
feeling totally like themselves in front of my camera is my **highest priority**.
You've got a friend in me.

what's included...

Engagement Session.

[or if you've already had one of those- we can just call it a regular couples session!]

This is a chance for us to hang out in person, get comfortable with each other, and get some pre-wedding photo magic captured of you both! I also like to think of this as a little "dress rehearsal" before the wedding so that I don't just show up on your best day and make you feel anything less than like we are already the best of friends

Timeline Prep.

We will set up a time to get together [in person or virtually- your choice!] and go over your plans for the wedding day. This will be a chance for me to flex my previous coordinator skills and make sure that we have the PERFECT timeline set up to capture anything and everything you want documented. We will go over your timeline, "photo wishlist" Pinterest board [I'll send you a link to this in your welcome email], any other final details, plus whatever else you'd like to discuss leading up to your big day!

Second Photographer.

This may or may not be a new term to you, but a second shooter is another photographer that helps me capture your big day. I work with a select few photographers who I know and trust to capture your day in the same way I would, and we work together to document every aspect of your wedding day. Having another photographer there means that you get a variety of angles and candid and not to mention, that many more cameras.

The Best Photos + Online Gallery.

After your session I send you the best of the best photos, all high-resolution, edited in my vibrant and natural style through an online gallery website called Pic-Time. This is where you can view your photos, download them to your computer or phone, share them with family and friends, and even order prints and albums!

what they're saying...

If you want the world's U L T I M A T E hype woman on your wedding day, Emily is your girl! From the moment we booked her (nearly 2-3 years ago??) Emily has become like family! She is attentive, she's kind, and most importantly she's passionate about her clients. Her attitude and personality speak volumes to the level of work and attention you'll receive from her. In addition to being the best photographer, Emily was incredibly helpful in the planning process! When we had our site visit, she was very attentive to where the sun moves, how things will photograph, and ultimately how the flow of the day works within the photography timeline. We were so grateful for Emily, especially in the last few weeks of the wedding day when we needed additional support! Can't wait to hire her again later for baby photos and family photos and Christmas photos and all the things! - Caitlin D. Bride

Emily was absolutely amazing to work with. We enjoyed our engagement shoot with her and loved how natural she made the photos look. I really like how she sent a group of photos just a couple days after the wedding before sending the rest of them later on. We felt that her rates were extremely reasonable and a great value for the high quality of photos and professionalism. Plus she is a very kind and humble person. Thank you Emily!
- Corinne W. Bride

Her work speaks for itself, so this is just a review about Emily the person. When we first met her during our engagement shoot, we immediately connected with her. It honestly felt like we've been friends for years, and it was such an amazing experience. From the engagement shoot, to our wedding day. She made us so comfortable and brought a lot of joy and happiness throughout. Our dream wedding wouldn't be possible without Emily.
- Michael T. Groom
