

## 01 / THE PROCESS

Once you contact us, it all starts with a quick questionnaire to get some basic information and put together a rough quote. From there, we'll hop on a phone call, exchange emails, or have a meeting (in-person or virtual!) to chat and organize some ideas. If you decide to work with us (yay!) we'll have you sign a contract and collect a 50% deposit.

Then the fun begins...*DESIGN!* We will send out a design time line so you know exactly what to expect. From there, we will go through the proofing and revision process. Once everything looks perfect, we'll go to print.

## 02 / PRICING + TIMING

Custom designs begin at \$1200 and semi-custom designs begin at \$700. We work with a variety of print methods (letterpress, foil, digital, etc.) and are happy to combine methods to work within your budget.

We ask that you contact us 4-5 months before your event for invitations and 8-10 months for save the dates — this way we can be sure to give the design and print processes the time they deserve.
