Our goal at Chapel In The Vines is to make sure that every couple have a personal, memorable wedding done the way they want it!

There's just no reason to spend the down payment for your house on a wedding, so I try to offer solutions that will fit any budget.

Riverside: \$300 We host weddings from just the two of you, up to 50 guests in our Riverside location all for the same low fee. It's a beautiful garden setting up in Lake Hills overlooking the entire Corona valley. Sunset weddings are our favorite here, but any time of day or evening is beautiful. We have a bridal room for your use to get dressed. Weddings in this location are \$300 regardless of size. This location only has 10 chairs, but for a little extra, we can rent them for every guest. Small receptions are available in this location for up to parties with 30 guests.

Temecula: \$300+ We host weddings at the beautiful Villa di Calabro winery in Old Town Temecula. To have your guests seated in the gazebo with you, our limit is 10 guests. If you would like to have more guests, we can seat 8 inside the gazebo and have your other guests just outside looking in. The venue cost (on top of the \$300 base fee) is \$50 for elopements or \$100 for up to 8 guests, then \$10 per additional guest. The maximum number of guests at this location is 20. There is not a dressing room at the winery, you will need to come dressed for the ceremony.

Parks: \$300 There are several parks in both Temecula and Riverside (and most cities in between) that make perfect places for garden weddings. My two favorites are Harveston Park in Temecula and Fairmount Park in Riverside. There are no chairs at either location, but the parks are free to use! Again, no dressing room available.

Photography: I have a professional photographer who will shoot my weddings at a very discounted price (because he's my husband). He charges me only \$95 to shoot your wedding and do all the post processing, then you just buy the photos online in the sizes you want! No big packages to get locked into, and his prints are also low cost. He even offers a digital download of your photos starting at just \$225 (price increases if you have more than 50 shots).

Receptions: As stated above, we do small receptions in Riverside, and again I try to give you the flexibility to fit your vision into your budget. You can do something as simple as a cake and champagne toast for one hour, appetizer & cocktail reception with cake and coffee served in the second hour, all the way up to a formal seated dinner. Let me help plan something special!
