TELL YOUR LOVE STORY

Photography

FULL DAY WEDDING COVERAGE

Ok, so we won't be standing by your bed when you wake up, but there are so many important moments of your day. From the time you get your makeup finished to the last dance. We want to tell the story from start to finish.

A FAMILY TEAM

What's better than one amazing photographer? A family of photographers and videographers! We are all related and we absolutely love working together!

FULLY EDITED PHOTOS

As much as we want to act laid back, we are very particular about how our photos are edited, so you'll get the look that tells your wedding story like no other.

DIGITAL COPIES WITH COMPLETE PRINT RELEASE

We will keep your photos, but just because we want to relive your day almost as much as you do. You'll have full rights to print as many of your photos as you want.

COMPLIMENTARY ENGAGEMENT SESSION

After all the wedding planning, you two are going to need a day out. You don't have to do an engagement session, but we always include it because it gives us a chance to make sure you think we're funny. We're happy to travel outside of the Front Range, we'll just need to discuss the details beforehand!

ONLINE GALLERY

Who uses email to send photos anymore? We do sometimes, but you'll have an online gallery for the friends and family you want to give access to, the power is in your hands...

TELL YOUR LOVE STORY

Photography+Videography

FULL DAY WEDDING COVERAGE

Just like our photography, we'll be there all day to record video and to make sure we capture your entire wedding story.

EXPERT STORYTELLING

There are so many amazing moments throughout a wedding day. We'll ensure that the video captures real, honest moments. This includes getting ready, the ceremony, the wedding party, dancing, and your time alone with your new husband or wife.

FULLY EDITED HIGHLIGHT VIDEO

After capturing your wedding story, we will use the footage to encompass your day. Most wedding videos are 5-7 minutes long.

DIGITAL ONLINE ACCESS

After completion of the highlight video, we will obviously send it to you to keep! On top of that, we'll upload it to Vimeo or Youtube so you can send the link to whoever you would like, it's up to you!

FULL QUALITY AUDIO

The visuals aren't the only part of a video that is meaningful. We will mic up the bride or groom to ensure we capture the messages throughout the day as well. Including a note for each other to read in private on your wedding day is highly recommended!

ADDITIONAL FOOTAGE IF NEEDED

We can also include the speeches given on your wedding day and just send you those clips if you'd like as well! No one wants to forget an amazing speech!
