Trailer Power

These mobile restroom units are equipped to operate as stand-alone units or operate off shore power. The stand-alone option increases the price due to the internal engineering that is being utilized. Functions such as,

-Internal 200 Gallon water tank

-Add on power generation

-Internal engineering to facilitate the plumbing, heating, air conditioning.

When all these functions are being used the daily price of the unit increases.

Standard Shore Power

These mobile restroom units are equipped to operate as stand-alone units or operate off shore power. The stand-alone option increases the price due to the internal engineering that is being utilized.

If you have access to shore power such as

-110v power outlet (typically garage or outdoor residential outlet.)

-Standard residential garden hose spicket.

The price is less due to the shore water inlet and power outlet.

50ft Garden Hose - \$25.00

50ft 20 AMP Extension cord - \$25.00

HEAT- Propane - \$100.00

4000-Watt Generator - \$150.00
