

# THE WEDDING EXPERIENCE

# WELCOME, BRIDE TO BE!

Choosing the right photographer is vital. After all, your wedding is the most important day of your life, filled with the most precious memories and cherishing times. And wedding photographs are of the few things you'll have to remember your day!

Marriage indeed is a sacred bond of two people coming together; it brings me pure joy to listen to your heartwarming journey of how you met each other and fell in love. It also helps me define my vision for capturing your most treasured moments with you.

It is likely the first time you are getting your photographs taken professionally. But, you don't need to fret as I will make you entirely comfortable bringing out the most flattering poses and your chemistry with your partner shines from your pictures. Because, after all, a picture explains a bond in such a beautiful way that words cannot fathom.

I believe consultation is the best way forward before a wedding shoot. It helps me to build a connection with you and resonate with your vision of how you want your wedding portraits to look.

## MEET ARLIE!

By now, you may be wondering about "Who's the girl behind the camera?" I am a family-oriented and passionate individual. My name is Arleshia, and I will be the one to ensure that your love story comes to life through my photographs. I believe it's the simple joys in our life that make life worth living.

Three things that I cannot live without are my family, my doggie, and my photography. An avid dog lover like me would love it if you want your pup to be a part of your magical journey. I just don't care about dogs; I adore them to the extent of considering them an integral part of my life. If you are someone who wants to tag along with your pup, then be my guest! Dogs just make the world so entertaining that you would love to adore them. Since I was taught at a very early age to be caring and thoughtful about people in my surroundings, so I counted the dogs too as my surroundings because they are the ones to be loved the same way as people are being loved.

If you are in pursuit of extra encouragement to pull out the better & brighter side of yours, here is the girl that will assist you to shine. I am extremely thankful for all the things that I have achieved in my life, specifically to God; without Him, I would not be able to pursue my passion and turning it ultimately into my profession.

## TESTIMONIALS

*Melissa & Justin Edmondson*

These images are perfect! We are thrilled at how well you and your second shooter captured each important moment. We really appreciate your being flexible and working with us on such a short timeline. You are incredibly talented and were a joy to work with — we can't wait for our next session!

*Pabrina & Jasmine Forbes*

Arleshia embodied everything I could've asked for and envisioned from a photographer. She captured every moment we wanted! She was so down to earth and professional, and was able to help me and my wife relax for our pictures which turned out beautiful.

*Domonique & Calum Putton-Reid*

♥♥♥♥♥ I just want to say these photos are beautiful. We truly do love them and appreciate you capturing these amazing moments. We love how you organized the photos in different categories and we can't wait to share them with our families.

# THE PROCESS

## STEP 01. LET'S CONNECT

We believe in hearing you out first. As we don't believe wedding photography to be such a conventional thing, we take it much more than that. So to make sure if we are a perfect fit for you, we first arrange an online session to gauge if we are on the same page then proceed further in the process.

## STEP 02. SAVE THE DATE

The second step is to make sure that your date gets secure and safe so that we can proceed in turning your projections into a reality. We then send a customized online booking proposal so you can select your package, pay your deposit and make everything official.

## STEP 03. ENGAGEMENT SESSION

So here it is to begin your fun! After booking, we schedule your engagement session. You don't have to worry about the rest of the matters as we will teach you EVERYTHING. We are well known for making couples comfortable. Making couples feel comfortable is our forte, so we leave the session feeling like family!

## STEP 04. TIMELINE CHAT

After getting out at least 4–6 weeks from your big wedding day, we make sure that we are completely ready for your dream day, i.e., THE WEDDING. We are professionals in creating custom timelines for our clients to make sure that you don't miss out on anything on your big dream wedding portraits.

## STEP 05. THE BIG DAY

Finally, the big day is here! Let's celebrate, and we will do the work for you. We start by telling the full story of the couples, as we believe it is going to be the day which will be remembered throughout your life. We don't shoot less than 8 hours to ensure that every bit of detail of yours gets amicably captured. From capturing the special moments of the bride to meeting moments of the couple with family and friends, we do it all!

## STEP 06. GALLERY DELIVERED + WEDDING BOOK DESIGN

After you get over your wedding day, we will send you an online gallery that contains all your wedding memories in detail. You need to be free from all your chores, as they are going to be HUNDREDS of them. Soon after your gallery is delivered, you will receive your album design, in case you have ordered it. From there, you can begin the customization process.
