I am currently only offering smaller packages, for smaller weddings. The packages available are ideal for coverage of the ceremony, group pictures taken after the ceremony and possibly a little more. The amount of coverage you need will depend on the length of your ceremony and the amount of group pictures you want to have taken.

WEDDING ALBUMS: I no longer offer wedding albums. Since wedding couples are now able to design their own wedding albums from their images, through on line outlets, the demand for professionally designed albums has dropped, in recent years. So much so, that the wedding album industry has been very unstable. Companies in business today, cannot be relied upon to produce an album I offer today, tomorrow, when it is needed. This makes it very difficult to promise specific wedding albums at a particular price. As I am sure you can understand, I would rather not deal with the headache. Fortunately, you can still put your own album together, which is one of the many reasons couples love to receive their digital files.
