## Capturing the Story of the Day

Our goal is to capture the intimate little moments. We want you ENJOY your special day and let the pictures on our hands. The spontaneity and naturalness are the basis on which we work every day.

Every event is unique and unparalleled and should be treated as such. We take those special moments to create a little story of one of the most memorable days of your lives. We think that all the details are important after all the memory of a photo is what remains forever.

A photo is only an image, but a good photo catches the soul.
