THE VISION

Some spend their entire lives in search of something truly beautiful...something that lasts...that is Forever. The ideal partner...that house that embodies the definition of 'Home', that career path which enables you to do what you love and be paid enough so that you want for nothing.

Once that something is found, life reaches the very epicentre of happiness and you feel truly alive for the first time.

Here at The Vision Presents, our stories transcend the limitations of time and are resilient to the constructs of life's obstacles. Where there is a story to be told, we'll capture it and once it is captured, it is secure...it is Forever.

THE PROPOSAL

In order to do so succinctly, we must cover the behind the scenes story...the preparation is as important as the ceremony itself. For the preparation represents the intricate details of love that are poured out in devotion to making sure everything is as it needs to be, for that day to be perfect.

Those priceless moments of laughter, spilling from the hearts of your brides maids/best men as they are fitted for their dresses/suits

All of these moments are part of the story that will culminate to that final walk up the aisle to his side...

Forever begins here...in these moments...

So they must be captured.

The ceremony itself...will be the crown...and as the golden band seals the promise...so shall The Vision Presents seal your story and commit it to Forever.

We will capture the people, the emotions, the love, the peace...when you look back at this film, you will see the happiness you missed (but I'm sure felt).

It is our job to show you what everyone else saw and heard.

It will be beautiful...And it will be Forever. The Vision Presents, will capture Your Story.
