

PRICE LIST

The final overall price of our services depends on these factors together with the basic price of the “package” of your choice:

- The number of locations (addresses) that events of the day will be taking place at.
- Whether you are interested in us using a drone for areal videography.

Additional fees beyond the standard package pricing:

- \$75.00 for every additional location. The very first location *does not count*. The fee *does not apply* if all events of your wedding day will be taking place on the same property.
- \$ 270.00 if you are interested in having a drone footage incorporated in your film. When requesting a drone, we suggest you consult the management of the venue/wedding site to acquire their consent and approval for the usage of a drone.

Additional hours

- We can extend the number of hours beyond the 9-hour limit indicated in the package at the rate of \$250.00 per hour for the presence of two primary cinematographers.

Out of State Travel

We are available and open for work and travel outside the state of New York. Travel arrangements and fees are established based on each individual event. Please contact us for more information.

Additional Services

We are available for any additional cinematography or video editing services outside of the framework indicated in our three options. Our services are open and available for variety of other events, beyond the wedding format such as music videos, corporate, online advertising, feature and short films and others. We can also accommodate you if you want us to capture other wedding related events such as love stories, engagements, anniversaries, and others. These services are a subject to an individual and subject-specific considerations and pricing.

Additional information

As professionals on the day of your wedding we will do everything in our power in terms of creativity and cinematography skills. It is helpful to have a cooperation and professional courtesy of other vendors such as photographers, DJs, musicians, wedding organizers, managers and others. We recommend that you bring to the attention of vendors the fact that you will be having two cinematographers accompanying you throughout the day for the purposes of the cinematic wedding film.

We recommend you inform your guests to refrain from the extensive use of cell-phone and other cameras during the main events of your wedding. This helps to ensure the non-interference with cinematographers and helps to secure the overall quality of the final film.

We operate our drones strictly according to FAA (Federal Aviation Administration) rules and regulations. If FAA standards cannot be met due to weather and other conditions outside of our control (high winds, rain, low temperatures, proximity to airports or other restricted no-fly areas), we will re-fund you for the price of \$250.00 within 30 calendar days after your event.

Insurance

As a legitimate business we do carry a business liability insurance.
