### **Out of State Travel**

We are available for work outside of the state of New York as well as outside the country. In such cases, travel arrangements and fees are subject to a particular agreement.

### **Videography**

As professionals on the day of your wedding, we will do everything in our power in terms of creativity and cinematography skills. It is helpful to have cooperation and professional courtesy of other vendors such as photographers, DJs, musicians, wedding organizers, managers and others. We recommend that you bring to the attention of vendors the fact that you will be having two cinematographers accompanying you throughout the day for the purposes of the cinematic wedding film. We also recommend you inform your guests to refrain from the extensive use of cell-phone and other cameras during the main events of your wedding. This helps to ensure the non-interference with cinematographers and helps to secure the overall aesthetic quality of the final film.

### **Drone operation**

We operate our drones strictly according to FAA (Federal Aviation Administration) rules and regulations. If FAA standards cannot be met due to weather and other conditions outside of our control (high winds, rain, low temperatures, proximity to airports, or other restricted no-fly areas), we will refund you for the price of \$250.00 within 30 calendar days after your event.

### **Insurance**

As a legitimate business, we do carry a business liability insurance.
