WEDDING PACKAGES 2022-2023

# #Who We Are

Production Box is a 15 year old Production facility located in the heart of Kingston, Jamaica.

We decided to add Wedding Cinematography to the list of services we offer, after many years of filming weddings for family and friends, fused with our love for travel and exploring new destinations.

Outside of weddings, we offer services such as: Commercials, Voice Overs, Special Features and more, but to date, the most rewarding of them all, are Weddings. It is just pure emotional satisfaction. It's emotions that years later our clients can relive, with them dropping us a message, that they still love their video, and believe me, nothing tells a story like video.

Our staff is knowledgeable, fun, creative and innovative. Our approach is to capture your day in a discrete, yet natural and spontaneous manner.

From all of us here at Production Box, "Congratulations" and we look forward to working with you.

~Laura McDonald
