Right now, I have 7, 9 & 11 hour packages to offer. From what I've seen, 7 hours usually is enough to covering most of the days key moments, and suited to days without a long list of events. In the past I had offered 6 and 8 hour base packages, but I noticed we were often racing against the clock to catch moments towards the day's end—because, let's face it, sticking to the schedule is pretty rare at weddings. Knowing how hard it can be to keep an exact schedule I have decided to throw in an extra hour for what would normally be a 6 or 8 hr package, giving us 7 and 9 hrs and a bit more wiggle room to make sure we don't miss anything important. After the wedding edits and full resolution images are delivered within 48hrs - one of the fastest delivery times in the industry.
