## *about Pollen*

Pollen offers nature-inspired floral design for weddings and events. With an eco-conscious approach, we seek out the best flowers of each season. Pollen's signature style embraces garden-inspired floral design with a touch of whimsy.

## *our values*

At Pollen, environmental and social responsibility take center stage. Our eco-friendly practices include:

- working with **local flower farmers** as much as possible
- **composting** our unused leaves, stems, etc.
- eliminating toxic floral foam from our studio
- **donating** your post-event flowers to a local nonprofit.

## OUR PROCESS

---

### 1. CONSULTATION

---

During your hour-long consultation with Lynn, we'll talk about the overall look of your wedding, discuss seasonal flower availability, and explore specific options for your flowers and decor.

---

### 3. FINAL MEETING

---

As the wedding day approaches, we meet again to review the quote, make any last changes, and work on the day-of logistics. After the final meeting Lynn works directly with your planner or venue to coordinate the delivery of your flowers.

---

### 2. BOOKING

---

After our meeting, your itemized floral quote will be sent to you by email. A \$1,000 deposit and signed contract reserves our services. For your convenience, Pollen offers online contracts and secure online payment.

---

### 4. WEDDING DAY!

---

The day of the wedding, we deliver and set up your flowers. We return after the wedding to retrieve all of the flowers and decor provided by Pollen. We don't want to see them go to waste, so we donate your post-event flowers to a local nonprofit.
