

Have fun.

Your photographer can be one of the biggest decisions you'll make while planning your wedding, and as with all other aspects of your big day, you should feel absolutely confident that you've made the best choice for your taste and your budget.

My style is to capture every candid moment that tells your whole story, the indelible memory that you want to keep close forever, without becoming a part of that memory myself – that is to say, I blend in – your wedding should be between you and your family and friends, not a pushy photographer!

All shots are digital, and high-resolution images are provided either as a digital download or on USB drive, which if you like you can use to print for yourself. Alternatively, I can help you through the printing process by creating a variety of beautiful finished albums and loose prints!

\$3500 includes the following:

- Nine hours of photography (free 10th hour if needed)
- Online photo gallery & announcements
- Full set of printable, high-resolution images
- Engagement photos
- Coffee Table Book album

These can be added for \$150 each:

- One hour of overtime
- Second photographer (includes 4 hours, additional time is \$150/hr)

And these can be removed to save \$150 each:

- The engagement photos
- The Coffee Table Book
