2023 Information + Wedding Packages

hello!

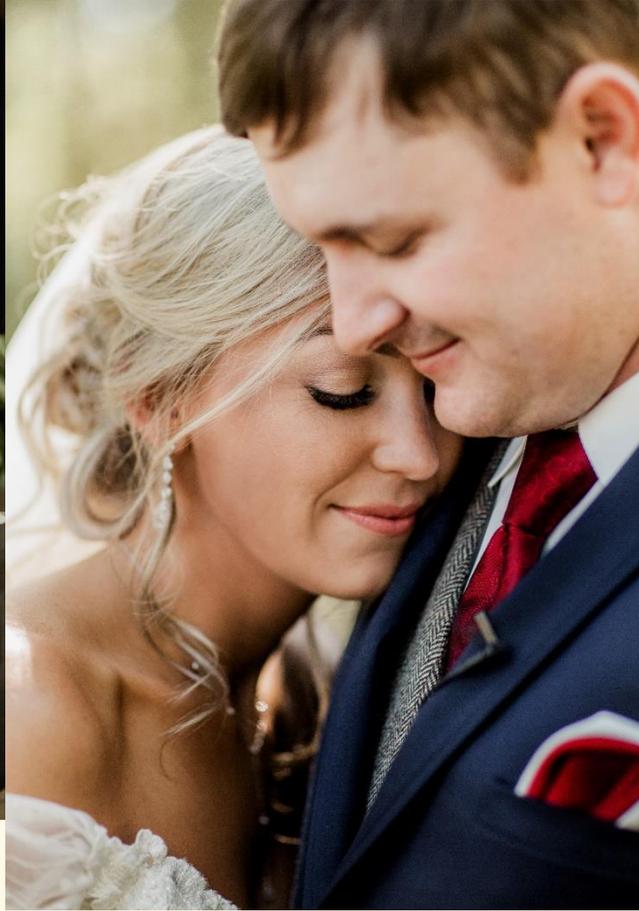

I'm so happy you're here! Thank you so much for taking some time to learn more about me and my work! My name is Amanda, and photography has been a huge part of my life since I was very young. I started taking photos and began to discover my passion over 15 years ago. I ultimately fell in love with wedding photography back in late 2014.

My mission and approach to photographing weddings has always been to beautifully and authentically tell this huge part of my couples' love story through photos. To provide them with a gorgeous collection of images that will transport them back to this incredible day and help them relive these moments.

Yes, I LOVE sneaking out during a perfect sunset, I love giving guidance and direction to create stunning portraits that look natural and effortless. However, a very large portion of the wedding day is spent documenting things just as they happen. Real and raw moments. Alongside the monumental parts of the day like walking down the aisle, the first kiss, first dance, etc. I automatically prioritize the in between moments. The reactions, tons of laughter, tears, and countless hugs.

Photography makes me come alive and love is the most wonderful thing in the world. Having the opportunity to use my passion of photography and creativity to document the love shared between two people brings me an overwhelming amount of joy. I am so thankful to have the ability to help and encourage people. I'm a photographer, but I'm also a friend who has your back every step of the way! I would love to hear about you, your love story and your vision for your wedding day!
