DJ & Master of Ceremonies

Creating Memories...

Your ceremony was magical; you are finally married! Everything is happening just as you have dreamed it would as you enter your reception to the roar of your guests. Successful, memorable events do not just “happen”. They take much planning, precision, and passion. The entertainment company that you hire will be responsible for some of the most long lasting memories from your reception.

More Than Just Music...

Your entertainer will also serve as your emcee and master of ceremonies during your reception. From your grand entrance to the last song of the night, your entertainer will be there guiding your guests.

Your entertainer will also coordinate with all of your vendors – photographer, caterer, venue, etc – to be sure everyone is working from the same time-line and ensure that the flow of your reception is exactly as we have planned.

As a company we also believe that excellent, professional equipment is required to accentuate your event. That is why we invest in professional, trusted brands with all of our equipment, and always carry back-up – just in case.

Investment

We all have the desire to get a “great deal”, but in reality “you get what you pay for” is much more accurate. Our pricing is not the lowest, but also not the highest. Our basic package includes up to 6 hours of music, dance floor lighting, and wireless microphone for toasts for an investment of \$999.⁰⁰

Many add-ons are available, including ceremony service, uplighting, and additional time.
