

Being a freelance artist for over the past ten years, I hear first-hand what women have to say and how they feel about beauty on all levels. And in the bridal world, women are approaching their wedding beauty in much more sensible, down-to-earth ways.

“My approach to bridal beauty is all about amplifying your own natural beauty so you look and feel like yourself at your very best.”

Camera-ready without unnatural or heavy application, I always want to make sure my bridal parties feel effortless, timeless and most importantly confident and comfortable.

I use a combination of professional hair and make-up products including brands such as Charlotte Tilbury, IT Cosmetics, Bobbi Brown, Ouai, R&Co, Kerastase and more. I also specialize in the newest and latest Airbrush makeup innovation, Temptu Air - “a natural-looking, skin-perfecting finish with our iconic, professional formula that is designed to mimic the appearance of flawless skin.” Sweat-proof, waterproof, Stay-on-ALL-DAY-stress-free makeup?! It's what everyone's buzzing about.

If radiant, boho-inspired, natural, casual glam is what you're after, then you've come to the right artist. So let me look after your hair and makeup while you sit back, relax and enjoy one of the most memorable times of your life!

“Every bride wants to feel stress-free and confident on their wedding day and with a less-is-more approach, this is where I come in.”

I highly recommend booking a trial appointment, so I can work with you in a low pressure environment (don't worry, I will travel to you!) to create the exact look you envision whether that be: A Less is More "Natural Beauty", Bronzed & Glowing "Beach Goddess", Soft Smoky "Sultry Siren", Old Hollywood "Vintage Glamour" or your own unique style.
