Wedding Collections

Simplicity Collections:

I understand that paying for a wedding can be daunting and appreciate that everyone has a budget they need to work with. So for those who need to keep costs down but don't want to sacrifice quality; I have the Kiss Collections. Each Kiss Collection comes with award winning photo coverage, a personal print release to your images and with 6-800 of the best images from your big day on a custom flash drive.

Little Kiss:

\$2400 - 6 Hours of Coverage
with Digital Files and Printing Agreement

Big Kiss :

\$3000- 8 Hours of Coverage
with Digital Files and Printing Agreement

Payment Options:

A \$1000 retainer is required to hold your date, and the remaining balance will be broken up into monthly installments. We then require the last installment 2 weeks prior to the big day. I accept Cash and Check and there is a small charge to cover the additional expenses if you would like to pay with your credit card.

Albums:

The included albums in the Signature Collections are Coffee Table Style modern flush mount albums, additional pages as well as book upgrades are available. Most of my couples add on to their initial investment after the wedding, adding pages to their basic album or upgrading the album for thicker pages and/or a leather binding please inquire for more specific information about my album pricing.

Signature Collections:

My Signature Wedding Collections have added a few upgrades, for those who don't want to fuss with picking and choosing from all the add on's and would like complete coverage. With a Signature Collection you get an engagement session and my basic coffee table album. (upgrades available)
