

2019 Package Lighting Options

Call or reserve your date online at www.thepartyexpressdjs.com

LFD Uplighting : Price varies by venue. \$350 starting point

Lights are wirelessly controlled and can change colors throughout the night (examples are for first dance, parent dances, and our exclusive paparazzi grand introduction) The lights are now programmed with chase sequences and programs so when the dancing starts, the lights work in tandem with your dance floor lights to make an immersive 360 degree experience where everyone is drawn into the energy. Add tubes to make your uplights totems for \$150 extra! Pics available

Truss Totems with moving head lights: \$250

This is the newest trend in DJ setups. It uses a 2 meter truss stood upright on each side of our table. Inside the truss is an uplight and we match the color to your color scheme of the wedding. On top of the totem is a white moving head light very similar to what you see at nightclubs and concerts. We program them to keep light on the dance floor for optimal energy. The look is completed with a façade hiding the DJ equipment.

LFD Custom Monogram: \$200

We can project a monogram on the wall, dance floor, or ceiling. You can customize it and provide us artwork so it's exactly how you want or we can do that for you. We can even use one of eight colors if you like that are built into our projector. You get to keep the monogram too.

LFD Cake/Ice Sculpture Spotlight: \$100

We use LED spotlights on custom pipe and drape to highlight your wedding cake or ice sculpture. The pipe and drape can be set up nearly

anywhere and will not melt ice or icing. This is a great way to show your guests a cake or sculpture that truly represents you.

Ceremony/outdoor sound system: \$125

This option is perfect for the couple who needs us to provide a secondary sound system in a different room in addition to the main system in the reception room. The ceremony system is small and compact and will not detract from the ambience of the ceremony. By having a secondary sound system, we can make a seamless transition from ceremony/cocktails to reception with no gaps in the music.

Satellite/Subwoofer Sound System: \$150

Fan of tight, solid, bass?. We use a 4 speaker system where we can perfectly tune the bass and treble to the room for a clean powerful sound you can feel. This can be a good option if you like high energy dance music, have a very large room, or have a very large guest list. Smooth clean sound is distributed evenly across the room. Ideal for 150+ guests.

Photo Booth: \$Varies

The newest edition to our options is a photo booth. Have fun with your friends taking pictures that will create memories that last a lifetime using a various assortment of props. We are constantly finding ways to make our photo booth even more fun so please call or email us for details or availability. This is available without the purchase of a DJ package.

Please call 610.451.2479 if you have questions or would like to setup a no pressure, no obligation, consultation.
