

Guido Tramontano Guerritore Photography

Guido's philosophy consists in documenting the wedding as an outside observer, with a non intrusive approach, reportage style. He considers pose photography as inappropriate for important and unique events such as weddings. Guido is well-known for going almost unnoticed but always there, a careful and discrete observer, ready to capture each and every valuable moment with a creative and artistic touch, paying great attention to details and emotions as well as composition and light. For his photojournalism approach he always uses two top-of-the-line cameras and a tele-lens to ensure candid shooting, letting the bride and groom behave naturally and spontaneously. This produces a high quality product that genuinely represents the wedding couple. As a result, brilliant imagery and storytelling are guaranteed.
