

## Wedding Photography Packages

*The ability to photograph those special moments that would otherwise go unseen is what I do best. I find it extremely rewarding to capture life, true love and art through the lens. I will work unobtrusively and tirelessly to capture your wedding day as it truly happens.*

*Relive the celebration and emotion of your day along with creative portraits, artistic details, candids of guests and unexpected moments.*

*When two are in love, there is beauty everywhere... that's where my image is found.*

*With a degree in the visual arts and over 15 years experience, I would be honored to capture your love story -- professionally, artistically and completely.*
