BASE PACKAGES

Start by choosing one of the base packages. Once you have selected your package, you are then welcome to include any additional À La Carte items from the following page. Note that you cannot remove items or hours from the base packages.

Platinum Package - \$ 4,800

- 2 photographers on your wedding day (myself and a second shooter)
- 12 hours of wedding day coverage from me and 8 hours of coverage from the second shooter
- 1,000 - 1,400 individually edited images from your wedding, with:
 - o A complete set of your photographs in color
 - o A complete set of your photographs in black and white
- A collection of 2 – 5 photographs shot with a drone, including images of your wedding venue and bride and groom images.
- All images delivered to you on a wooden USB flash drive in:
 - o Full (print, 300dpi) resolution with a printing license to share with friends and family
 - o Upload resolution (72dpi) with a sharing license for online sharing
- A custom online gallery to share with family and friends, who can directly order additional prints
- Wedding planning support: A posing and planning guide and a wedding questionnaire
- A large (12x12"), custom designed, professional quality, press-printed album with 40 pages in your choice of leather cover. Each album is completely unique. I have it printed on gallery quality paper with one of the most reputable professional printers in the country. It's a quality far beyond what you can buy online. In the digital age far too few people are printing their images. With this album you get something that you can hold in your hands: a beautiful heirloom of the highest quality that will be shared for generations. It is a time-intensive, detail-oriented process to create the album, but it is worth it.

À LA CARTE OPTIONS (ADD ON TO PACKAGE OPTIONS)

Second Shooter - \$400

- A second shooter is one of the best investments you can make in your wedding photography. Not only does it mean more images and better coverage, but it opens up all sorts of possibilities on candid angles to posed shots, creative work, and complicated shots that require two pairs of hands. I work with some of the best out there. 8 hours of second shooter coverage costs \$400.

Engagement/Casual Shoot - \$ 750

- A 1.5 – 2.5 hour casual shoot with 50 – 200 images fully edited with a complete set of photographs in color and a complete set of photographs in black and white
- All images delivered to you on a USB flash drive in full resolution (print, 300dpi) with a printing license and upload resolution (72dpi) with a sharing license

Drone Photography - \$250

- A collection of 2 – 5 photographs shot with a drone, including images of your wedding venue and bride and groom images. Note that the drone photography option is only possible where in locations and under circumstances where it is legal to fly drones. If you purchase this option and it is not possible to fly on your wedding day, you will receive a full refund.

Additional Travel - \$0.25/mile

- All wedding venues located within a 25 Mile radius of Washington, DC and Charlottesville, VA will not have any additional travel charges. Venues located beyond this radius will have an additional fee of \$0.25/mile and will likely require accommodation. Destination weddings are always welcome and require custom arrangements.

Additional Hours - \$250/hr (or \$200/hr)

- Additional hours added on to a base package come at the rate of \$200/hour for the primary shooter (myself) and \$50/hour if you wish to keep your second shooter.

Custom Designed, Premium Quality Album - \$ 1,000

- A large (12x12"), custom designed, professional quality, press-printed album with 40 pages in your choice of leather or linen cover. Each album is completely unique. I have it printed on gallery quality paper with one of the most reputable professional printers in the country. It's a quality far beyond what you can buy online. In the digital age too few people are printing their images. With this album you get something that you can hold in your hands: a beautiful heirloom of the highest quality that will be shared for generations. It is a time-intensive, detail-oriented process to create the album, but it is worth it.
