Always In Focus Wedding Photography

Your Photographer - Melanie Lawrence:

I began photography in early 2015 by offering a few free sessions. Soon my business grew and I was booking numerous family and children photography sessions each month. In the summer of 2015 I began photographing weddings and have seen my business grow from a few weddings a year to being booked with weddings nearly every weekend during "wedding season". June through the end of October are prime months for weddings in upstate NY so be sure to reserve your date well in advance. Check my "availability" page to see if I have your date available. Many of my weddings are booked through "word of mouth" from some of my amazing clients! I am located in Rotterdam, NY and I travel throughout the state for weddings. I would describe my photography style as traditional, although I like to be creative when photographing weddings. I have each couple fill out a detailed questionnaire so I know exactly what photos they would like. I like to make sure I get traditional formal photos but also photos of the little details of the day, the guests, and most importantly capture the emotions of the day. I look forward to getting to know you and photographing one of the most special days of your life!
