OR

Up to 8 hours of videography coverage by 2 videographers

Your photos will be mailed to you as high resolution images on a DVD and thumb drive.

All photos are edited and include the rights to reproduce in print and to post online.

Your photos are hosted in an online gallery/store for a full year.

Videos are not edited and professional audio is not synced unless a specific edit is purchased.

These edits must be purchased within 1 year following your wedding.

Video files are delivered as unedited “raw footage” via client’s external hard drive, which will be mailed to Jeremiah Sjoberg Photography, LLC and returned at no extra charge.

All edits are cut between the cameras filming and we recommend having at least 3 videographers for the most complete coverage and best edit.
