Ready to learn more about how we can help you
plan the wedding of the year?

Our service guide will answer all your questions about having The Metric System Entertainment and the experience you can expect to have with us as we plan your wedding. Up next - learn more about how we serve you.

Our *Approach* To Planning Your Wedding

We are big on communication to allow you to feel comfortable.

You have full control of your wedding day soundtrack and expectations.

Not Only Are We DJs, We Are Your Partners.

It's time to pop some champagne (*or maybe some rosé!*) because we have a wedding to plan!

As Wedding professionals, we do so much more than just play music and operate a photo booth. Our goal is to make a real connection with you and treat your special day as if it were our own. We hold a high standard and sincere level of commitment to both you and our company.

We meet with our clients regularly to establish a level of comfort and dependability to ensure your event goes the way you want. We collaborate with your other wedding professionals working at the event to execute a smooth delivery of all formalities. Equal parts business and pleasure, we live to create a happy, fun, and lifelong relationship because the value of a memorable experience is priceless!

OUR EXPERIENCE

With over 10 years in the wedding industry and hundreds of weddings and events under our belt, we bring passion and innovation to your wedding. With the latest in sound, lighting, and production we provide an unparalleled experience in producing a unique and distinctive celebration tailored to you!

Design

From initial conversation to week of your wedding day, we are constantly creating the best layout and light design to customize your wedding venue.

Planning

Alongside your wedding entertainment specialist, a Wedding Planning App will help keep you on track and create a user friendly experience. Your wedding party/guests can be invited to the submit music selections.

Production

In coordination with the venue and other wedding professionals, we arrive early. This allows us to have everything in your service package set up and ready to party. We make it look clean and classy!

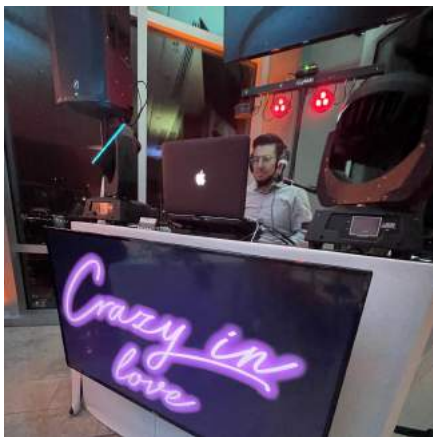

Does that sound like the perfect way to plan your wedding over the next few months?

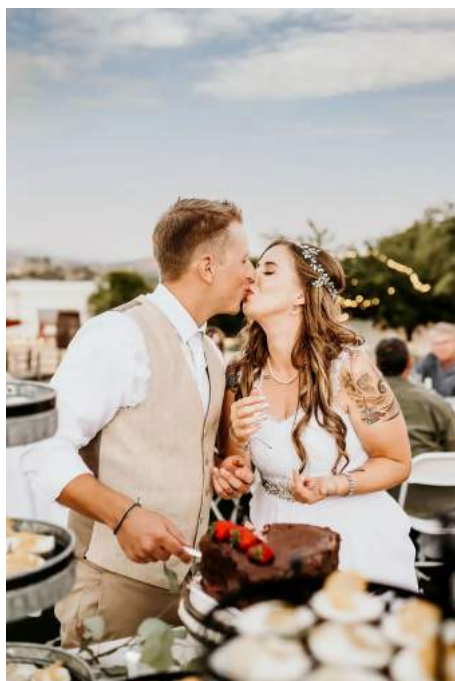

We thought so. Next up - take a look at our work and hear from our past couples.

Every love story starts with a *great story*.

Here's a glimpse into our work and some kind words from couples we've served.

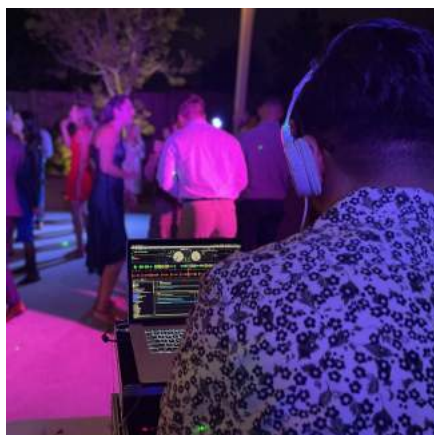

"Way better than we could've imagined."

"Short review - Way better than we could've imagined. DJ Danny cares so much and way over-performs in a great way. He really makes your event better and at a really good value. Longer review - Danny went above and beyond in each way. We met over facetime when the lockdown was in force.

We met in person for a meal and chat when things opened. We stayed in contact back and forth via text and email leading up to the wedding. He was with us every step of the way not only making sure we had the right music, but also giving us little tips and tricks to make our wedding perfect. He even dropped by our venue beforehand to get comfortable with what he'd be working with.

On the day of the wedding,-- he was there so early to set up and acclimate with all of our staff. He's so friendly and outgoing. He's just hired staff, he's a good friend. Danny over delivered on his job. Even though our venue had a speaker setup he was able to bring his own as extras and was able to save the day when the venue speakers didn't quite deliver. At the end of the day, I couldn't recommend DJ Danny enough. He's a great guy with perfect service and a wonderful price. You can't top that."

-- Jason & Samantha A.

"Provided much more than a service"

I would absolutely recommend Danny's services. Danny was very professional and friendly from the beginning. He asked a ton of great questions months prior to the wedding so that he would create a playlist that would cater to my guests and I.

Danny was always quick to respond and always on top of things. He was the voice of my day of coordinator and myself throughout our special night and he did a great job to hype my guests up.

Danny provided much more than a service, he provided an experience for my guests that I was aiming for; fun and romantic!

-- Jose & Barry

Ready to become our next love story?

We are ready, too. Next up – learn more about our pricing and services packages.

We seriously can't wait to hear from you.

Our next step is to connect for a consultation. We'd love to schedule a time where we can learn more about you, your unique love story, and what you envision for your wedding.

[**Schedule Your Meeting Here**](#)

Here's DJ Danny's handy Tips on Hiring a DJ..

Here are a couple of wedding planning links to assist in any way possible.

Articles:

[12-Month Planning Countdown](#)

&

[Wedding Questions to Ask Your DJ](#)

1. **Prompt return of your phone calls or Emails.** Does the DJ you are thinking about hiring respond in a prompt manner? You should expect to get a call back or an email back within 24 hours. The only exception may be weekends when most DJs are performing.
2. **Willingness to meet with you and present his/her service.** Will the DJ try to meet with you or at least schedule a video conference?
3. **Do you LIKE the person that shows up?** There is NOTHING worse in the world than having to do business with someone you do not like. Choosing the person who feels right is the most important factor in picking the right entertainer for your party or reception.
4. **Does the DJ have a music list or online system that shows you what sort of music he or she has available?** You need to be assured that the DJ you hire not only has a sizable collection, but has a variety of music, especially for wedding receptions, where many different styles of music and guests will be in the same room together.
5. **Does the DJ use professional grade equipment?** The DJ should be able to tell you what he/she uses and characterize the equipment as professional grade.
6. **Will the DJ offer to meet with you AFTER signing the contract to plan your event?** A professional DJ is ALWAYS willing to discuss your event at any time before the event starts, and should display the flexibility to accommodate changes and help you solve problems. Meeting or phone/video conferencing your DJ to plan your event is of paramount importance to a successful event such as a wedding reception.
7. **Will the person that you interview be the person that will perform at your event?** This is THE most common complaint about the DJ industry today. The person you meet turns out NOT to be the person that actually does your show. Often, you are not made aware of this. Ask the DJ you interview if he/she will be the actual person performing or will someone else perform the event. You need to know this UP FRONT before you sign a contract.

We're so excited to get to know you and can't wait for our consultation call!

In the meantime, follow us on Instagram for the latest event highlights and fun music mashups.
