- Opal

Thank you so much for reaching out to Sweetbay!

My name is Opal , I am the owner and one of the lead photographers of Sweetbay. I am a mother of a fabulous 17 year old and daily dog trainer of these 3 very spoiled fur babies. My grandfather was also a photographer. This has been a lifelong hobby that had somehow, magically became a career 16 years ago. I absolutely love this job, I have lots of fun and I hope to never grow out of it.

Me

One of the things that sets me aside from other photographers is my flexibility.

I often go out of my way to accommodate what a couple is looking for or needs from me. In growing my business, I learned what people needed and offered what felt right, rather than what was typically sold. I work hard and will treat you like family.

I have always been fair and up compromising rather than "Just like all the rest".

For instance, I have always edited and included all of the digital files at no extra charge. I have always arrived early and stayed late. I have numerous times lowered my price just to work with someone who I really had a connection with or who really just needed a break in cost.

When we started to offer video it just made sense to me to include all of the video files and footage rather than attempting to upsell those on top of the service itself. I am worth every penny of the cost, but it's not always about more money for me.

It's about capturing your wedding day and saving memories for you. This means a lot to me!

You will find me to be honest and fair in all aspects of my business.

My talent is apparent in my portfolio and excellent feedback from couples who have had the pleasure to work with me and my team. I am a lot of fun, I work hard and take great pics!

Within the last 16 years we have received nothing but 5 star reviews on every platform.

We are a team of 4 photographers and 3 videographers.

**I can promise you a great experience working with my company!**

### Engagement Session

**\$500**

This is a great chance to meet and get to know each other. When I shoot with a couple, I will be easy going, upbeat and directive. I have ways to move you about, to capture the essence of who you are together. I make it easy and fun to be in front of the camera. We will get photos that are posed looking at the camera and then many of those more natural candid shots too. You do not need to have ideas for the poses or be super photogenic. Just let me do the work and you will have a great collection of photos after. These photos are great for the wedding day to decorate tables, send save the dates, invites or just special moments to have and look back on. The session lasts an hour.

You will get about 100 or so edited, high resolution images.

I am in Rohnert Park but do travel about for a session.

## Included with all photography coverage

### Pre-wedding day venue walk though

This means as long as our schedules match up we can visit the venue together and walk though the days agenda and talk about our vision for photography.

### Phone call, coffee date, and/or email consultations

Every event is different. Sometimes we do all 3. Other times email is sufficient to get on the same page for the day. But the idea is to communicate and plan together.

### A smiling, professional and easy to love photographer with gentle direction & patience .

Most of the time this is me. But as the calendar fills, I become booked and then it will be one of my Sweetbay photographers.

### Early on site day of arrival and attention to detail

We will always strive to arrive early. This is to walk around the venue and acclimate ourselves, go over notes and timeline agendas once more, and will also eliminate any risk of traffic delays.

### Image retouching

#### Image Retouching includes:

- \*Color correction
- \*Overall general image touchups
- \*Skin & Blemish retouching
- \*Body, Face, Arms, and other edits upon request

### High Resolution digital image files

The amount of images really depends on how long we are there and how much is going on. Some smaller events may only have 300 for a couple hours. Larger events might have over 1000 for an 8 hour day.

These are JPEG files.

### Here is a brief idea of what a collection of wedding images consists of:

**Details-** Dress, Shoes, Rings, Decorations, Ceremony decor, Flowers, Venue, Table set-ups, Food, Cake etc.

**Candid's** - Laughing, Crying, Eye contact, Walking down the isle, Guests and Family watching the ceremony, First look, Cocktail hour chatter, Toasts, Table Visits, Dancing, Cheering, Hand holding, Cake cutting and so much more!

**Portraits-** Large group photo, Friends, Family, Bridal party, Bride/Groom, Groom/Goom  
Bride/Bride, Guests, Parents, Grandparents, Children etc.

## The Tulip Package

### Ceremony and Portraits

**\$1500**

This is great for those having a smaller gathering who only want to capture the ceremony and portraits after. Coverage starts 45 minutes prior to your ceremony with photos of the decorations, location and guest arrival. Following the ceremony coverage runs until portraits afterwards are complete.

## The Lily Package

### Half Day Coverage

**\$2500**

This is a 5-hour package that usually will allow time to photograph the ceremony, portraits after, decorations and details. It will allow time for the start of the reception, first dance/parent dances, toasts and possibly through the cake.

Some will also start with photos as they get ready which will shift the 5 hours up and then the coverage will end a little sooner in the reception. We can work together to make the most of this time.

## The Daisy Full Day Coverage

**\$3500**

8 hours

This is the best package for most events. Coverage starts early and allows time to photograph the both of you as you get ready. Plenty of time to start at another location such as a home or hotel and then move to the wedding venue. We can take portraits with bridal party before the ceremony and some folks like to do a first look at this time. You will have plenty of time to capture the entire day from prep through all of the main events of your reception from the grand entrance, first dance/parent dances, cake, bouquet, garter, open dancing and more.

## The Rose

**\$4500**

Engagement session  
The Daisy Full day Package  
-8 Hours of coverage-  
Two photographers

This is the 8-hour ideal coverage and brings in a second photographer for the wedding day. Not all weddings 'need' a second but having two people is always nice. The engagement session is a great way to get to know each other before the big day. Also, lots of great photos of the two of you.

# Included with video coverage

Multiple cameras to film the ceremony, dances, toasts, and any other times where more than one angle is preferable.

All the important moments are delivered in full with audio. Such as Ceremony, Toasts, Dances, Cake Cutting etc

You'll get a highlight reel that you will be able to share on social media. The highlight reel is like a trailer of your wedding day. It will typically have music, vows, and other audio behind the film. Usually 3-5 minutes.

Instagram reels are also available by request, and these are 1 min long.

You'll get a full day film. This is one long film of your entire event. You can sit back and hit play and watch the day in its entirety. Most full films are about 1-3 hours depending on the event.

Footage is edited and delivered on a custom engraved flash drive as well as shareable link to the highlight reel in about 4-6 weeks.

## Video 1

### Ceremony Coverage

Film will include clips of the location, decorations, and the ceremony in its entirety. You will receive a full-length edited film showing the ceremony from start to end and a shorter highlight reel that will be formatted to share on Instagram and other social media platforms.

**\$2000**

## Video 2

### Ceremony and Reception

This a 4-hour package that will typically cover the ceremony, venue decor, footage during the bridal shoot, grand entrance, first dance and toasts.

You will receive a full-length edited film of the day's coverage and a 3-5 minute Highlight R

## Video 3

### Prep, Ceremony and Reception

This is a 7-hour Video Package. This will allow coverage to begin during the getting ready portion of the day. This makes for a nice storyline to the overall film. Films of the dress, bridal details, moments of both of you before the ceremony. Then video will capture the ceremony through the reception. Typically, with 7 hours you will have coverage through your most important moments of the reception, dances, toasts, table visits, cake cutting etc.
