

Fees

The fee charged for a performance at your wedding will depend on a number of factors, such as:

- Our having to travel some distance, or at certain (increased traffic) hours to perform at your function. In such cases, a trip fee is assessed in relation to the travel time involved, and will be included in the total amount quoted. Parking fees and/or other travel expenses such as bridge tolls will also be included. Airfare and lodging expenses are also included if the event is taking place outside the state.
- The fees for a Highland bagpipe solo performance will be in addition to the fees for the band alone, at a reduced rate.
- The total amount of time 'on-site' or 'on-call'. For example, when requested to play at the ceremony and reception, we may be needed for several hours. we have a one-hour minimum charge for bagpipe only for the first hour (this covers many shorter ceremony-only performances), and a two-hour minimum charge for the band. But please note that the second and subsequent hours are charged at a much reduced rate. :-)
- Performances on some major holidays and holiday weekends may be charged at a higher rate.
- Rehearsal time for special requests
- Period costume requests
