

Wedding Photography Service

\$200 OFF January - February Winter Wedding Photography Packages

My wife and I have been on the opposite side of the camera since 2003 and shoot an average of 25 to 30 weddings annually. We love documenting the beginning of your journey together and from our own experience, realize the gravity of the moment. We are thrilled to be there throughout life travels as well which might include additions to, significant transitions or simply celebrations of times together with friends and family. Our style focuses most on the candid and photojournalistic aspect of photography, capturing the true feelings of every moment and layering the story of the day. We understand that the day and time is yours to remember and want the photographs that will hang on your walls to reflect the uniqueness of your own personalities. Thank you very much for your interest in our services and we sincerely appreciate your time and consideration. - Aaron & Agnieszka Tanis
